LaChance, 2007 In this new work Albert LaChance presents a complete reframing of Christianity as an experiential rather than dogmatic approach to the presence of Christ It emphasizes the idea of Christ as the source and sustainer of the cosmos the Earth the life community and global culture As such it takes a unitive approach with Christianity understood as being in mystical union with global culture and with the ecological realities of the Earth In the author s view Christianity thus joins hands with Buddhism Hinduism and

Taoism in a unitive oneness with all that is Consisting of twenty eight short chapters The Modern Christian Mystic focuses on the presence of God permeating and organizing the beginning of existence in the form of consciousness giving birth to energy and then the material reality of the universe The author argues that just as St Augustine introduced the pagan Plato to Christianity and a millennium later St Thomas Aquinas revitalized his faith with the pagan philosophy of Aristotle so in the modern age the non theism of Buddhism Taoism and Hinduism holds the key to a revived mystical practice The Modern Christian Mystic posits a nurturing new world based on commonality rather than conflict in the world of spirit
