Australias Outlook On Asia:

Australia's Outlook on Asia Werner Levi, 1958 SCOTT copy 1 From the John Holmes Library collection **Australian Foreign Policy in Asia** Allan Patience, 2017-12-12 This book sets out to discuss what kind of middle power Australia is and whether its identity as a middle power negatively influences its relationship with Asia It looks at the history of the middle power concept develops three concepts of middle power status and examines Australia's relationships with China Japan and Indonesia as a focus It argues that Australia is an awkward partner in its relations with Asia due to both its historical colonial and discriminatory past as well its current dependence upon the United States for a security alliance It argues this should be changed by adopting a new middle power concept in Australian foreign policy *Australia's Asia* David Robert Walker, Agnieszka Sobocinska, 2012 To think that Australia is confronting Asia for the first time in the 21st century is to deny Australia's history and the self awareness that comes from understanding that the country has been here before Asia appears throughout modern Australian history as a source of anxiety or hope It has been a presence both within and outside Australia shaping who Australians are as well as the country's engagement with the wider world This book assembles an impressive group of scholars across a range of disciplines to present a broadly conceived cultural history that places Asia at or near the center of Australia's national story Australia's Asia From Yellow Peril to Asian Century captures the essence of the pendulum swings that have characterized Australian approaches to Asia over the past century and a half The editors have done a first class job in assembling high quality chapters that make an important contribution to the existing literature on Australia and Asia Moreover this book tells an important story about the role and impact of individuals not just elites but in many cases ordinary citizens in building Australia's relations with Asia It is a valuable remedy to the ahistorical approach of so many of the debates within Australia over regional engagement and is a useful text for those outside Australia interested in acquiring insights into what motivates the country's approach to its region Pacific Affairs Vol 87 No 4 December 2014 *Regional Economic Outlook, April 2011, Asia and Pacific* International Monetary Fund. Asia and Pacific Dept, 2011-04-28 The April 2011 issue of the Regional Economic Outlook Asia and Pacific focuses on the policy challenges of managing the next phase of growth after Asia's recovery from the global crisis The analytical chapters discuss how capital flows to the region may affect the monetary policy transmission mechanism and the role of macroprudential measures in this context the implications of the Asian supply chain for rebalancing growth across the region and the policy challenges for Asian low income and Pacific Island countries Economic recovery in Asia as a whole has been rapid 8.3 percent in 2010 and fueled by both exports and domestic demand Looking ahead growth is expected to continue at a more moderate but also more sustainable pace in 2011 and 2012 led by China and India Meanwhile new risks to the outlook have emerged The full human cost and impact on infrastructure of the mid March earthquake and tsunami in Japan remain to be determined The steady response of the Japanese government and people has helped to contain the effects of the disaster on production but a risk remains of

prolonged disruptions in production that could spill over to other Asian economies in the regional supply chain Moreover tensions in the Middle East and North Africa and related risk of further oil price spikes could disrupt global growth and affect Asian exports Finally pockets of overheating have emerged in Asia as core inflation and credit growth have accelerated in several Asian economies The need to tighten macroeconomic policy stances has become more pressing than it was six months ago

Australia And South Asia: The Crystallisation Of A Relationship Ravindra Varma,2003-06 Southeast Asia has become a battleground of power politics today where even the so called Middle Powers have their vital stakes Australia's participation in the Southeast Asian drama has naturally aroused the interest of commentators and policy makers in Asia and abroad Australia is Asia's nearest white neighbour and 70% of its diplomatic activity is concerned with Asian affairs Dr Ravindra Varma's analysis of Australia's involvement in Southeast Asia since the Second World War forms the first full length study by an Asian writer of Australia's Asian policies The book has grown out of the author's research in India Australia and a number of Southeast Asian countries such as Malaysia Thailand Singapore South Vietnam The Philippines and Indonesia His discussions with officials politicians diplomats and statesmen of various nations in the area have helped the book to achieve a perspective which is intimate and detached at the same time The book is indispensable to students of international politics in general and specialists on South and Southeast Asia in particular

Australia's China Lachlan Strahan,1996 First published in 1996 Australia's China explores the multifaceted and dynamic Australian encounter with China from the beginning of the Sino Japanese War in 1937 through the Cold War to the Australian recognition of the PRC in 1972 Going beyond conventional policy studies it traces the patterns in Australian reactions to China from the grass roots to official circles highlighting the centrality of images concerning the exotic disease sexuality the frontier and China as a paradise anti paradise In responding to China Australians revealed something of themselves and this book maps the formation of Australian conceptions of identity in the context of a cross cultural encounter which was variously cooperative enriching baffling and antagonistic But there was no single Australian conception of China Rather competing perceptions jostled in a shifting dialogue

APAIS 1999:
Australian public affairs information service , Australia Faces Southeast Asia Amry Vandenbosch,Mary Belle Vandenbosch,2021-03-17 Australia as a Western society in the Orient faces a unique and paradoxical challenge in her relations with her close but unfamiliar neighbors of Southeast Asia Explicitly dependent upon British foreign policy until the fall of Singapore in 1942 Australia has reluctantly and painfully begun the task of developing a policy of her own The Japanese conquest of Southeast Asia and many of the Pacific islands during the Second World War awakened Australia to the need to secure her own defenses and later when Britain began a gradual withdrawal from Southeast Asia Australia was thrown upon her own resources in dealing with her politically unstable and volatile neighbors and also with the larger Asian threat posed by Communist China In Australia Faces Southeast Asia Amry and MaryBelle Vandenbosch trace Australia's attempts to reconcile her cultural heritage and her geography

Understanding Australia's Neighbours Nick

Knight, 2004-07-06 The East and Southeast Asian region is of immense economic strategic and cultural significance to Australia. It has also been important in defining Australia's national identity and is the origin of many of Australia's immigrants. Australians therefore need to have some understanding of their northern neighbours and to be able to think about them in an informed way. They need to do so not only to be able to understand the region in which they live but also to better understand themselves. This book facilitates this process by providing comparisons between Asian and Australian societies. The reader is encouraged to think about Australia's neighbours across a wide range of social, economic and historical contexts. Written in an accessible and informative way, this is a book for all Australians who seek a better understanding of Australia's neighbours in East and Southeast Asia. **The Balance of Power in East Asia** Michael Leifer, 1986-07-02 Based on lectures delivered at the Royal United Services Institute for Defence Studies
