Crimm,Laurence H. Winer,2011 In Politics Taxes and the Pulpit Nina J Crimm and Laurence H Winer examine the provocative mix of religion politics and taxes involved in the controversy over houses of worship engaging in electoral political speech The authors analyze the dilemmas associated with federal tax subsidies benefiting nonprofit houses of worship conditioned on their refraining from political campaign speech The Supreme Court s recent Citizens United decision invalidating federal campaign finance restrictions on corporations political campaign speech makes the remaining analogous restrictive tax laws constraining many nonprofit entities all the more singular and problematic particularly for houses of worship Crimm and Winer explore the multifaceted constitutional tensions arising from this legal structure and implicating all fundamental values embodied in the First Amendment free speech and free press the free exercise of religion and the avoidance of government establishment of religion They also examine the history and economics of taxation of houses of worship The authors conclude that there exists no means of fully resolving the irreconcilable clashes in a constitutionally permissible and politically and socially palatable manner Nonetheless Crimm and Winer offer several feasible legislative proposals for reforming tax provisions that likely will generate considerable debate If Congress adopts the proposed reforms however the revised system should substantially ameliorate the disquieting constitutional tensions induced by the current tax laws and curb the growing emotionally charged atmosphere about the role of religion in the public sphere **The First Amendment** Steven H. protection from illegal search and seizure and other key constitutional rights The Elements of Journalism Bill Kovach, Tom Rosenstiel, 2001-07-24 In July 1997 twenty five of America's most influential journalists sat down to try and discover what had happened to their profession in the years between Watergate and Whitewater. What they knew was that the public no longer trusted the press as it once had. They were keenly aware of the pressures that advertisers and new technologies were putting on newsrooms around the country. But more than anything they were aware that readers, listeners and viewers, the people who use the news, were turning away from it in droves. There were many reasons for the public's growing lack of trust. On television there were the ads that looked like news shows and programs that presented gossip and press releases as if they were news. There were the docudramas, television movies that were an uneasy blend of fact and fiction and which purported to show viewers how events had really happened. At newspapers and magazines, celebrity was replacing news, newsroom budgets were being slashed and editors were pushing journalists for more edge and attitude in place of reporting. And on the radio, powerful talk personalities led their listeners from sensation to sensation, from fact to fantasy while deriding traditional journalism. Fact was blending with fiction, news with entertainment, journalism with rumor. Calling themselves the Committee of Concerned Journalists, the twenty-five determined to find how the news had found itself in this state. Drawn from the committee's years of intensive research, dozens of surveys of readers, listeners, viewers, editors and journalists, and more than one hundred intensive interviews with journalists and editors, The Elements of Journalism is the first book ever to spell out both for those who create and those who consume the news, the principles and responsibilities of journalism. Written by Bill Kovach and Tom Rosenstiel, two of the nation's preeminent press critics, this is one of the most provocative books about the role of information in society in more than a generation and one of the most important ever written about news. By offering in turn each of the principles that should govern reporting, Kovach and Rosenstiel show how some of the most common conceptions about the press, such as neutrality, fairness and balance, are actually modern misconceptions. They also spell out how the news should be gathered, written and reported, even as they demonstrate why the First Amendment is on the brink of becoming a commercial right rather than something any American citizen can enjoy. The Elements of Journalism is already igniting a national dialogue on issues vital to us all. This book will be the starting point for discussions by journalists and members of the public about the nature of journalism and the access that we all enjoy to information for years to come.
