The Marketplace Annotated Bibliography Pete Hammond, 2011-03 Every workday millions of Christians enter the marketplace Whether as sales associates or engineers auto mechanics or executives Christians are called to serve God in the workplace But most need help integrating faith and work How can you be salt and light on the job Where can you turn for help in developing a biblical and satisfying view *Activist*

Business Ethics Jacques Cory, 2012-10-05 Jacques Cory's second book *Activist Business Ethics* expands upon the theoretical concepts developed in his first book *Business Ethics The Ethical Revolution of Minority Shareholders* published by Kluwer Academic Publishers in March 2001. Activist business ethics is needed in order to remedy the wrongdoing committed to stakeholders and minority shareholders. This will be achieved by cooperation between ethical businessmen, activist academics, stakeholders and minority shareholders. We should treat others as we would want others to treat us, not through interest but by conviction. Yet this principle is not the guideline of many companies in the modern business world despite the fact that most religions and philosophers have advocated it in the last 3 000 years. How can we convince or compel modern business to apply this principle? And is it essential to the success of economy? In order to answer these questions, this book examines the evolution of activist business ethics in business, in democracies, in Christianity, Judaism, Islam, Buddhism, in philosophy and psychology. The book examines international aspects, the personification of stakeholders, the predominance of values and ethics for CEOs and the inefficient safeguards of the stakeholders' interests. The book presents new vehicles for the safeguard of those interests, such as the Internet Transparency Ethical Funds and Activist Associations, and future activist vehicles such as the Supervision Board and the Institute of Ethics. Today everybody is a stakeholder and a minority shareholder of a company directly or through our pension funds or as a client, a supplier, a member of a community and a citizen. The principal premise of the book is therefore that ultimately the wrongdoers act against themselves. The book is woven with many references on ethics and business ethics from the professional and classic world literature, the Bible and other religious texts, poetry, maxims and folk tales showing that ethical problems are similar throughout the ages and cultures, but some of the solutions given in this book are new and original. *Activist Business Ethics* is primarily intended for the academic market and is particularly appropriate for academics in business administration, ethics and finance. It should also appeal strongly to the professional business finance market and to stakeholders and minority shareholders as well who are aware of the wrongdoing committed to them and who want to remedy the situation by activist conduct. **Business Ethics** Jacques

Cory, 2012-12-06 Morten. And what are we going to do when you have made liberal minded and high minded men of us? Dr Stockman. Then you shall drive all the wolves out of the country, my boys. Ibsen. *An Enemy of the People*. Act V. The theoretical and empirical research of this book describes how the traditional safeguards of the rights of minority shareholders have failed in their duty and how those shareholders have remained practically without any protection against the arbitrariness of the companies and majority shareholders. The law, the SEC, society, boards of directors, independent directors, auditors, analysts, underwriters and the press have remained in many cases worthless panaceas. Nevertheless, in the Ethics of 2000, new vehicles have been developed for the protection of minority shareholders, mainly the Internet transparency, activist associations and ethical funds. Those vehicles give the shareholders at least the chance to understand the pattern and methods that are utilized to wrong them and give them a viable alternative for investment in ethical funds. The new vehicles

will prevent minority shareholders from using the Armageddon weapon by ceasing to invest in the stock exchange and causing the collapse of the system that discriminates against them
