Unwanted Beauty Brett Ashley Kaplan, 2007 Controversial questions about beauty in artistic depictions of the Holocaust
Burnt Whole, 1994 **Visual Culture and the Holocaust** Barbie Zelizer, 2001 A book that looks at both the traditional and the unconventional ways in which the holocaust has been visually represented The purpose of this volume is to enhance our understanding of the visual representation of the Holocaust in films television photographs art and museum installations and cultural artifacts and to examine the ways in which these have shaped our consciousness The areas covered include the Eichman Trial as covered on American television the impact of Schindler s List the Jewish Museum in Berlin the Israeli Heritage Museums Women and Holocaust Photography Internes *The Oxford Handbook of Holocaust Studies* Peter Hayes, John K. Roth, 2012-11-22 Few scholarly fields have developed in recent decades as rapidly and vigorously as Holocaust Studies At the start of the twenty first century the persecution and murder perpetrated by the Nazi regime have become the subjects of an enormous literature in multiple academic disciplines and a touchstone of public and intellectual discourse in such diverse fields as politics ethics and religion Forward looking and multi disciplinary this handbook draws on the work of an international team of forty seven outstanding scholars The handbook is thematically divided into five broad sections Part One Enablers concentrates on the broad and necessary contextual conditions for the Holocaust Part Two Protagonists concentrates on the principal persons and groups involved in the Holocaust and attempts to disaggregate the conventional interpretive categories of perpetrator victim and bystander It examines the agency of the Nazi leaders and killers and of those involved in resisting and surviving the assault Part Three Settings concentrates on the particular places sites and physical circumstances where the actions of the Holocaust s protagonists and the forms of persecution were literally grounded Part Four Representations engages complex questions about how the Holocaust can and should be grasped and what meaning or lack of meaning might be attributed to events through historical analysis interpretation of texts artistic creation and criticism and philosophical and religious reflection Part Five Aftereffects explores the Holocaust s impact on politics and ethics education and religion national identities and international relations the prospects for genocide prevention and the defense of human rights Problems Unique to the Holocaust Harry James Cargas, Victims of the Holocaust were faced with moral dilemmas for which no one could prepare Yet many of the life and death situations forced upon them required immediate actions and nearly impossible choices In Problems Unique to the Holocaust today s leading Holocaust scholars examine the difficult questions surrounding this terrible chapter in world history Is it ever legitimate to betray others to save yourself If a group of Jews is hiding behind a wall and a baby begins to cry should an adult smother the child to protect the safety of the others How guilty are the bystanders who saw w *In Search of Identity* Dan Urian, Efraim Karsh, 1999 This study of Israeli culture affords a meaningful insight into a society in a state of transition **Memory Effects** Dora Apel, 2002 Dora Apel analyzes the ways in which artists born after the Holocaust whom she calls secondary

witnesses represent a history they did not experience first hand She demonstrates that contemporary artists confront these atrocities in order to bear witness not to the Holocaust directly but to its memory effects and to the implications of those effects for the present and future Drawing on projects that employ a variety of unorthodox artistic strategies the author provides a unique understanding of contemporary representations of the Holocaust She demonstrates how these artists frame the past within the conditions of the present the subversive use of documentary and the archive the effects of the Jewish genocide on issues of difference and identity and the use of representation as a form of resistance to historical closure

Trespassing Through Shadows Andrea Liss,1998 Art historian Andrea Liss examines the inherent difficulties and productive possibilities of using photographs to bear witness initiating a critical dialogue about the ways the post Auschwitz generation has employed these documents to represent Holocaust memory and history 12 color photos 28 bandw photos

At Memory's Edge James Edward Young,2000-01-01 How should Germany commemorate the mass murder of Jews once committed in its name In 1997 James E Young was invited to join a German commission appointed to find an appropriate design for a national memorial in Berlin to the European Jews killed in World War II As the only foreigner and only Jew on the panel Young gained a unique perspective on Germany s fraught efforts to memorialize the Holocaust In this book he tells for the first time the inside story of Germany s national Holocaust memorial and his own role in it In exploring Germany s memorial crisis Young also asks the more general question of how a generation of contemporary artists can remember an event like the Holocaust which it never knew directly Young examines the works of a number of vanguard artists in America and Europe including Art Spiegelman Shimon Attie David Levinthal and Rachel Whiteread all born after the Holocaust but indelibly shaped by its memory as passed down through memoirs film photographs and museums In the context of the moral and aesthetic questions raised by these avant garde projects Young offers fascinating insights into the controversy surrounding Berlin s newly opened Jewish museum designed by Daniel Libeskind as well as Germany s soon to be built national Holocaust memorial designed by Peter Eisenman Illustrated with striking images in color and black and white At Memory s Edge is the first book in any language to chronicle these projects and to show how we remember the Holocaust in the after images of its history

Impossible Images Shelley Hornstein,Laura Levitt,Laurence J. Silberstein,2003-10 Impossible Images brings together a distinguished group of contributors including artists photographers cultural critics and historians to analyze the ways in which the Holocaust has been represented in and through paintings architecture photographs museums and monuments Exploring frequently neglected aspects of contemporary art after the Holocaust the volume demonstrates how visual culture informs Jewish memory and makes clear that art matters in contemporary Jewish studies Accepting that knowledge is culturally constructed Impossible Images makes explicit the ways in which context matters It shows how the places where an artist works shape what is produced in what ways the space in which a work of art is exhibited and how it is named influences what is seen or not seen and how calling attention to certain details in a visual

work such as a gesture a color or an icon can change the meaning assigned to the work as a whole Written accessibly for a general readership and those interested in art and art history the volume also includes 20 color plates from leading artists Alice Lok Cahana Judy Chicago Debbie Teicholz and Mindy Weisel
