Sustainable Consumer Behavior Gerrit Antonides, 2018-07-06 This book is a printed edition of the Special Issue Sustainable Consumer Behavior that was published in Sustainability Greener Marketing John Grant, 2020-07-07 BUSINESS BOOK AWARDS FINALIST 2021 This timely book is a sequel to John Grant's Green Marketing Manifesto 2007 the award winning and bestselling definitive guide to green marketing and not greenwashing Fast forward to mid 2020 Climate Change is back at the top of the public and political agenda Even after covid 19 hundreds of big name CEOs are committing to a green recovery And surveys show widespread global public support for this and recent shifts in sustainable behaviours and attitudes in markets ranging from organic food to flying Sustainable brands are significantly outperforming conventional ones As are sustainability related stock prices Companies like Unilever continue to set ambitious targets related not just to climate but biodiversity and deforestation plastics social justice regenerative farming Sustainability related trends such as plant based foods and electric vehicles are showing steep growth and creating tomorrow's superbrands Impossible TESLA This book is packed with up to date learnings case examples and trends covering everything from eco labelling transparency and the circular economy to rebound effects sustainable finance blockchain and regenerative farming A core message being that to drive sustainability marketers firstly do really need to properly understand sustainability its many applications and implications Secondly to be effective marketers need to understand what it means to their consumers and other significant audiences Hence the book takes a long hard look at what was driving all the protests boycotts and petitions in 2019 and what ideas causes and platforms caught the public imagination The ultimate goal is to go beyond marketing that simply looks good to marketing that does good This book helps in achieving that goal by showing the reader how to Uncover strategies for sustainable marketing that actually deliver on green and social objectives not just greenwashing Reconceptualise marketing and business models and learn to recognise the commercial strategies and approaches that are no longer fit for purpose Learn how hot topics like the climate crisis biodiversity social justice single use plastics and supply chain transparency influence green and social marketing Read about numerous examples and case studies from both brand leaders and challengers that have developed innovations and fresh creative approaches to green and social marketing Get practical tools models facts strategies workshop and project processes and business case rationales so that you can build your own plans and proposals This book is intended to assist marketers by means of clear and practical guidance through a complex transition towards meaningful marketing that makes a positive creative impact on the climate crisis and on improving human life in troubled times Aimed both at big companies that are trying to be good and good companies that are trying to be big

Development in Coastal Zones and Disaster Management Amita Singh, R. Lalitha S. Fernando, Nivedita P. Haran, 2020-10-13 In the last two decades coastal regions have relatively endured some of the fiercest oceanic and geophysical disasters than the earlier decades Yet disaster management governance fails to match the human nonhuman and

environmental calamity which is unfolding in its most frequent and unpredictable pattern Between the Asian Tsunami of 2004 to the devastating Chennai and Kerala floods of 2018 the socio industrial livelihood impact alerts governments towards a greater and more serious compliance to laws for coastal conservation The United Nations Office for Disaster Risk Reduction UNDRR in 2018 had shocking statistics to share as the deaths and damages related to only Tsunami disaster at the coasts to 251 770 and US 280 billions respectively in the last 20 years 1998 2017 as compared to 998 and US 2 7 billion in the previous 20 years 1978 1997 Coastal conservation is no more a question of casual governance but has become a need for survival The region of South Asia which ranks much higher in its vulnerability weak resilience and relatively undersupplied governance structures ought to take this responsibility on a priority The spirit of Hyogu Declaration and the Sendai Framework for Action suggests preparedness and resilience building as key approach areas in coastal governance The book is incomparable in its holistic and transdisciplinary social science based approach to disaster management which links conservation of marine flora and fauna ecosystems and land management with decision making processes and coastal regulations These grass root findings from the subcontinent are substantiated by a section on the most powerful court battle on the Kerala Floods as a guideline for readers to discerningly identify an Act of God often used as a veil to hide lack of preparedness apathy and political greed This book becomes indispensable reading for anyone involved in research administration or any level of decision making for the mitigation and prevention of disasters
