Aging Death And The Quest For Immortality:

Aging, Death, and the Quest for Immortality C. Ben Mitchell, Robert David Orr, Susan A. Salladay, 2004 This is a print on demand book and is therefore non returnable Aging is a fact of life and issues surrounding it are hot There are currently 35 million Americans over the age of sixty five more than ever This demographic shift is noteworthy not only because the ranks of the elderly will continue to swell in coming years but also because it is taking place in what the editors of this book call an ageist society one that increasingly loathes every facet of aging Indeed the ethical issues associated with aging are among the thorniest in medicine and public policy today Aging Death and the Quest for Immortality is a timely volume by physicians healthcare professionals pastors and ethicists who explore the experiences dilemmas and possibilities associated with aging The book opens by offering three distinct perspectives on aging this section includes practical suggestions for dealing with retirement disability healing and death Several contributors then analyze controversial ethical issues raised by aging and health care including medical decision making the moral standing of patients with dementia health care rationing and assisted suicide A third group of essays applies a theology of care to ministry to and through older adults the counseling of seniors and the application of palliative care The book closes by discussing some of the emerging technologies and interest groups aimed at achieving immortality also asking appropriately what insights the Christian faith brings to the discussion Reflecting much wisdom and sensitivity this book will give welcome help to care providers and to those who are themselves in the later stages of life Contributors R Geoffrey Brown Jackie Cameron William P Cheshire Jr John Dunlop Robert W Evans Stephen P Greggo Vernon Grounds John F Kilner C Ben Mitchell Robert D Orr Stephen G Post Susan A Salladay Linda L Treloar Gregory Waybright The Future of Aging ,2010-08-17 Just as the health costs of aging threaten to bankrupt developed countries this book makes the scientific case that a biological bailout could be on the way and that human aging can be different in the future than it is today Here 40 authors argue how our improving understanding of the biology of aging and selected technologies should enable the successful use of many different and complementary methods for ameliorating aging and why such interventions are appropriate based on our current historical anthropological philosophical ethical evolutionary and biological context Challenging concepts are presented together with in depth reviews and paradigm breaking proposals that collectively illustrate the potential for changing aging as never before The proposals extend from today to a future many decades from now in which the control of aging may become effectively complete Examples include sirtuin modulating pills new concepts for attacking cardiovascular disease and cancer mitochondrial rejuvenation stem cell therapies and regeneration tissue reconstruction telomere maintenance prevention of immunosenescence extracellular rejuvenation artificial DNA repair and full deployment of nanotechnology The Future of Aging will make you think about aging differently and is a challenge to all of us to open our eyes to the future therapeutic potential of biogerontology

Chasing Methuselah Todd T. W. Daly, 2021-02-04 The quest to live much longer has moved from legend to the laboratory

Recent breakthroughs in genetics and pharmacology have put humanity on the precipice of slowing down human aging to extend the healthy life span The promise of longer healthier life is enormously attractive and poses several challenging questions for Christians Who wouldn t want to live 120 years or more before dying quickly How do we make sense of human aging in light of Jesus invitation to daily take up our crosses with the promise of the resurrection to come Is there anything wrong with manipulating our bodies technologically to live longer If so how long is too long Should aging itself be treated as a disease In *Chasing Methuselah* Todd Daly examines the modern biomedical anti aging project from a Christian perspective drawing on the ancient wisdom of the Desert Fathers who believed that the incarnation opened a way for human life to regain the longevity of Adam and the biblical patriarchs through prayer and fasting Daly balances these insights with the christological anthropology of Karl Barth discussing the implications for human finitude fear of death and the use of anti aging technology weaving a path between outright condemnation and uncritical enthusiasm **On Moral Medicine** M. Therese Lysaught, Joseph Kotva, Stephen E. Lammers, 2012-07-20 In print for more than two decades *On Moral Medicine* remains the definitive anthology for Christian theological reflection on medical ethics This third edition updates and expands the earlier awardwinning volumes providing classrooms and individuals alike with one of the finest available resources for ethics engaged modern medicine *Simple Solutions for Humanity* Patrick Kenji Takahashi, 2008-02-29 Book 1 SIMPLE SOLUTIONS for Planet Earth dealt with energy and the environment SIMPLE SOLUTIONS for Humanity provides ultimate answers for our society and beyond Ever wonder if there could ever be a way to end crime and war forever or the prospects for immortality or a better educational system or the reality of extraterrestrial intelligence or the future of religion If all the above can be satisfactorily resolved then just in case there is no afterlife where is the best place to live on Earth today Simple solutions of course are hardly that How to end crime What about three strikes and you re dead Sure this should work but it s not morally rational The solution to war is incredibly simple Just read the book and find out how Scientists are getting very close to determining a way to disarm our aging gene When will this happen Our educational system is flawed Be prepared to be shocked by the Stanford Marshmallow Study Then find out that our terrible student scores relative to the developed world might not be worth all the anguish The USA will prevail because of our superiority in Could the solution for world peace or curing cancer be streaming in from space The Search for Extraterrestrial Intelligence could someday soon detect what would be the most monumental discovery since the invention of God How can religion overcome the immorality of purporting to promise an afterlife WITHOUT ANY PROOF A Golden Evolution is suggested Are you one of those who largely wasted your life looking out only for yourself family and friends Could there be a higher calling You too can make a positive difference *Rainbow Vision* is explained to equip you with the tools to help save Planet Earth and Humanity *Ethics, Law, and Aging Review, Volume 11* Marshall B. Kapp, 2005-09-01 We are now engaged in a movement that de emphasizes the reliance on institutional forms of long term care for disabled persons needing ongoing daily living assistance and converges on the use of

non institutional service providers and residential settings In this latest edition of *Ethics Law and Aging Review* Kapp and ten expert contributors help us examine the forces and potential for changing the long term care industry both positively and negatively and address this paradigm shift from the impersonal public psychiatric institutions of the 1960s and 1970s to the present day assisted living environments that have been fueled by economic social political and legal forces Most importantly this volume identifies obstacles to change and enlighten service providers advocates and key policy makers to the pitfalls that can largely interfere with positive outcomes as a result of long term care deinstitutionalization Topics explored include Community based alternatives for older adults with serious mental illness Failing consumer directed alternatives to nursing homes Ethics of Medicare privatization

Pursuing Health in an Anxious Age Bob Cutillo, MD, 2016-09-14 A Redeemed and Renewed Vision of Health Despite all the care available to us our society is more concerned about health than ever Increased technology and access to health care give us the illusion of control but can never deliver us from the limitations of our bodies But what if our health is a gift to nurture rather than a possession to protect Drawing from decades of medical experience in many different contexts Dr Bob Cutillo helps us cultivate a biblical understanding of the relationship between faith and health in the modern age reorienting us to a wiser pursuit of health for the good of all Weaving in his own story of serving the most vulnerable he leads us to a bigger view of health care and a hope that is more secure than our physical wellness hope with the power to transform our communities

Summary of Lifespan by David Sinclair: Why We Age and Why We Don't Have To Thomas Francis, 2023-10-31 *Lifespan* by David Sinclair In this initial chapter Sinclair introduces readers to the age old human quest for longevity and the desire to find ways to delay or even reverse the aging process He touches upon historical beliefs myths and early attempts to discover a Fountain of Youth that could grant eternal life Sinclair sets the stage for the scientific journey that follows emphasizing the importance of understanding the biology of aging in the quest for a longer and healthier life As the book progresses it delves into various aspects of aging biology genetics epigenetics and cutting edge research in the field of longevity It also offers practical advice and insights on how individuals can make lifestyle choices that promote healthier aging While *Lifespan* does not include a traditional introductory chapter it immerses readers directly into the intriguing world of aging research setting the tone for a thought provoking exploration of the possibilities and challenges of extending healthspan and lifespan Grab a copy and learn more
