Man's perception and how to accept aging has not changed dramatically since the beginning of time or over the last 220 years as man's life expectancy has increased Man is not a stagnant being and as Bathauer notes Psychologist tell us that all of life is made up of continuous changes from childhood all the way to old age The last twenty years of life the stage we call old age brings about almost as many changes as the first twenty years Changes in the latter part of life are usually more than all the changes during the first twenty years of life because they carry the threat of loss disability or other degenerative conditions Christian counselors are trained in the spiritual and general mental health aspects of aging Caregivers and family members usually receive their training on the job as a caregiver As the graying of America continues at an accelerated rate the Christian counselor pastor and caregiver are going to need the tools and resources to counsel and assist in this area Aging will be an area which expands into additional areas that will affect everyone in some manner The Christian counselor pastor and

caregiver can benefit both professionally and personally by having an understanding of what caregiving is and is not Also having the knowledge of where to retrieve useable and beneficial information is a blessing to all It helps to reassure that all involved during this very stressful time period and when major decisions might need to be made to know that there is applicable information at hand By having this knowledge it will allow the counselor and caregiver to truly get a better understanding of the aging person He is now able to help in a spiritual mental and physical dimension Again it is not expected that the counselor pastor and caregiver will become a specialist in aging or a gerontologist The expectation is that the reader will find helpful information as a caregiver and counselor References 1 Ruth M Bathauer Parent Care Fear and Losses of the Elderly Ventura CA Regal Books 1990 32 2 L Gelhaus Boomers Prefer Aging at Home Provider 2004 12 15 X

Social Work and Disability Peter Simcock, Rhoda Castle, 2016-06-03 Social Work and Disability offers a contemporary and critical exploration of social work practice with people with physical and sensory impairments an area that has previously been marginalized within both practice and academic literature It explores how social work practice can and indeed does contribute to the promotion of disabled people s rights and the securing of positive outcomes in their lives The book begins by exploring the ways in which disability is understood and how this informs policy and practice Opening with a thought provoking account of the lived experience of a disabled person using social work services it goes on to critically analyse theory policy and contemporary legislative change Inequality oppression and diversity are the focus of the second section of the book while the remainder offers an in depth exploration of the social work practice issues in disability settings notably work with children adults and safeguarding Service user and carer perspectives case profiles reflective activities and suggestions for further reading are included throughout Social Work and Disability will be essential reading for social work students and practitioners It will also be of interest to service users and carers students on health and social care courses third sector practitioners and advocates
