Natural History Investigations in South Carolina Albert E. Sanders, William Dewey Anderson, 1999 The story of South Carolina's natural history investigations especially in zoology and botany It describes the state's diverse flora and fauna the impact of social political and economic events on natural history and the role Charleston played in the state's scientific heritage

Carolina's Golden Fields Hayden R. Smith, 2019-10-31 The basis for this book began twenty years ago when I enrolled in the College of Charleston's summer archaeological field school After spending the first half of the semester honing our technique by digging five foot by five foot units identifying soil stratigraphy and collecting artifacts at the Charleston Museum's Stono Plantation the archaeologists reoriented us students to a new site For the remainder of the field school we investigated Willtown Bluff on the Edisto River an early eighteenth century township surrounded by plantations My interest in inland rice cultivation grew from our work at the James Stobo site a 1710 plantation located on the edge of the Willtown township and one mile from the tidal river For three archaeological seasons between 1997 and 1999 I participated in excavations of the Stobo Plantation house foundation located on a hardwood knoll surrounded by a sea of low lying Cypress wetlands During this time I had a unique opportunity to walk off the dry terra firma and explore miles of inland rice embankments sprawling to the east and to the south of the house site Major embankments traverse the wetlands on a magnetic north south and east west axis intersected by smaller check banks and drainage canals as far as the eye can see under the dense cypress and hardwood canopy

African-Atlantic Cultures and the South Carolina Lowcountry Ras Michael Brown, 2012-08-27 African Atlantic Cultures and the South Carolina Lowcountry examines perceptions of the natural world revealed by the religious ideas and practices of African descended communities in South Carolina from the colonial period into the twentieth century Focusing on Kongo nature spirits known as the simbi Ras Michael Brown describes the essential role religion played in key historical processes such as establishing new communities and incorporating American forms of Christianity into an African based spirituality This book illuminates how people of African descent engaged the spiritual landscape of the Lowcountry through their subsistence practices religious experiences and political discourse

The Allstons of Chicora Wood William Kauffman Scarborough,2011-11-07 William Kauffman Scarborough s absorbing biography The Allstons of Chicora Wood chronicles the history of a South Carolina planter family from the opulent antebellum years through the trauma of the Civil War and postwar period Scarborough s examination of this extraordinarily enterprising family focuses on patriarch Robert R F W Allston his wife Adele Petigru Allston and their daughter Elizabeth Allston Pringle Scarborough shows how Allston in the four decades before the Civil War converted a small patrimony into a Lowcountry agricultural empire of seven rice plantations all the while earning an international reputation for the quality of his rice and his expertise Scarborough also examines Allston s twenty eight year career in the state legislature and as governor from 1856 to 1858 Upon his death in 1864 Robert Allston s wife of thirty two years Adele found herself at the head of the family Scarborough traces how she successfully kept the family plantations afloat in the postwar years through a series of decisions that exhibited her astute business judgment and remarkable strength of character In the next generation one of the Allstons five children followed a similar path Elizabeth Bessie Allston took over management of the remaining family plantations upon the death of her husband and in order to pay off the plantation mortgages embarked on a highly successful literary career Bessie authored two books the first treating her experiences as a woman rice planter and the second describing her childhood before the war A major contribution to southern history The Allstons of Chicora Wood provides a fascinating look at a prominent southern family that survived the traumas of war and challenges of Reconstruction

Let Us Now Praise Famous Gullies Paul S. Sutter,2015-12-15 Providence Canyon State Park also known as Georgia s Little Grand Canyon preserves a network of massive erosion gullies allegedly caused by poor farming practices during the nineteenth century It is a park that protects the scenic results of an environmental disaster While little known today Providence Canyon enjoyed a modicum of fame in the 1930s During that decade local boosters attempted to have Providence Canyon protected as a national park insisting that it was natural At the same time national and international soil experts and other environmental reformers used Providence Canyon as the apotheosis of human and particularly southern land abuse Let Us Now Praise Famous Gullies uses the unlikely story of Providence Canyon and the 1930s contest over its origins and meaning to recount the larger history of dramatic human induced soil erosion across the South and to highlight the role that the region and its erosive agricultural history played in the rise of soil science and soil conservation in America More than that though the book is a meditation on the ways in which our persistent mental habit of separating nature from culture has stunted our ability to appreciate places like Providence Canyon and to understand the larger history of American conservation

Planting a Capitalist South Tom Downey,2009-08-01 This is a pathbreaking book well grounded in the appropriate documentary record Downey makes especially good use of the reports of the South Carolina Canal and Rail Road Company and of other corporations which are so tedious to read to offer an exciting and fresh perspective on an old problem of vital importance the

relationship between businessmen and planters in the Old South American Historical Review Downey's book has many merits. First of all, it successfully presents a comprehensive and harmonious picture of the development of the region. Second, it helps to better define the contours of the long misunderstood southern political economy and its transformations during the latter part of the antebellum era. It is indeed a well-written and well-thought piece of historiography showing in microcosm how a new synthesis of antebellum southern history should be conceived. Enterprise and Society. In *Planting a Capitalist South*, Tom Downey effectively challenges the idea that commercial and industrial interests did little to alter the planter-dominated political economy of the Old South. By analyzing the interplay of planters, merchants, and manufacturers, Downey characterizes the South as a sphere of contending types of capitalists: agrarians with land and slaves versus commercial and industrial owners of banks, railroads, stores, and factories. His book focuses on the central Savannah River Valley of western South Carolina, an influential political and economic region and the home of some of the South's leading states' rights and proslavery ideologues, which also spawned a number of inland commercial towns, one of the nation's first railroads, and a robust wage labor community. As such, western South Carolina provides a unique opportunity for looking at contrasting economic forces but solely within the boundaries of the South: slavery vs. free labor, industrial vs. agricultural, urban vs. rural. A revisionary study, *Planting a Capitalist South* offers clear evidence of a burgeoning transition to capitalist society in the Old South. Downey's book is a welcome new addition to the growing corpus of studies seeking to understand the lives of white merchants and manufacturers. Well-written and researched, Downey's excellent work will add greater nuance to our picture of the social and economic life of the Old South, particularly our picture of the emerging southern middle class. Georgia Historical Quarterly. *Planting a Capitalist South* makes several important contributions. The idea that commerce and industry challenged tenets of republican ideology may be a familiar one, but Downey pursues it in directions seldom explored by previous historians of the Old South, examining conflicts over issues like railroad routes, water rights, and the power of town governments. Moreover, he links those subjects to historians' debates about the capitalist character of the region, and he stakes out an innovative position with his argument that the late antebellum South was in the midst of a transition to capitalism. Business History Review
