Apocalypse And Or Metamorphosis:

Apocalypse And/or Metamorphosis Norman Oliver Brown, 1991 Few of the masters of modern consciousness have continued to develop as Brown has done He alone of the gurus of the 60s remained true to the modernist injunction to Make it new Dazzlingly original Hayden White author of *Metahistory* Future historians will find it a powerful source for the imaginative response of those most deeply steeped in our tradition when it was being most radically tested and transmuted by history Carl E Schorske author of *Fin de Si cle Vienna* *After Evil* Robert Meister, 2011 The way in which mainstream human rights discourse speaks of such evils as the Holocaust slavery or apartheid puts them solidly in the past Its elaborate techniques of transitional justice encourage future generations to move forward by creating a false assumption of closure enabling those who are guilty to elude responsibility This approach to history common to late twentieth century humanitarianism doesn't presuppose that evil ends when justice begins Rather it assumes that a time before justice is the moment to put evil in the past Merging examples from literature and history Robert Meister confronts the problem of closure and the resolution of historical injustice He boldly challenges the empty moral logic of never again or the theoretical reduction of evil to a cycle of violence and counterviolence broken only once evil is remembered for what it was Meister criticizes such methods for their deferral of justice and susceptibility to exploitation and elaborates the flawed moral logic of never again in relation to Auschwitz and its evolution into a twenty first century doctrine of the Responsibility to Protect

Green Man, Earth Angel Tom Cheetham, 2012-02-01 Green Man Earth Angel explores the central role of imagination for understanding the place of humans in the cosmos Tom Cheetham suggests that lives can only be completely whole if human beings come to recognize that the human and natural worlds are part of a vast living network and that the material and spiritual worlds are deeply interconnected Central to this reimagining is an examination of the place of language in human life and art and in the worldview that the prophetic religions Judaism Christianity and Islam presuppose If human language is experienced only as a subset of a vastly more than human whole then it is not only humans who speak but also God and the world with all its creatures If humans internal poetry and creative imaginations are part of a greater conversation then language can have the vital power to transform the human soul and the soul of the world itself **Marginalized in the Middle** Alan Wolfe, 1996 Wolfe examines the ills of American society in the 1990s and illustrates the paradoxes of social criticism Jacket **The Temple and the Grail** W. F. Veltman, 2021-04-28 In the popular imagination the Holy Grail part of the legendary romance of King Arthur belongs to the realm of myth The Knights Templar also have a legendary enigmatic aspect Despite the immense volume of historical research available plausible explanations to the mystery at the core of their practices have yet to be revealed By studying these two themes side by side and showing their inner relationship Veltman reveals valuable new perspectives On the one hand he demonstrates that the poetic imagination of the Grail mystery has its origin in concrete historical events and on the other hand that the true history of the Knights Templar is essentially esoteric Combining historical research with insights gained from the work of Rudolf Steiner Veltman presents an impressive survey of the subject beginning with the pre Christian Mysteries and ending with a vision of Michaelic Christianity He analyses the significance of the holy city of Jerusalem the Temple of Solomon the Temple Legend the Grail Temple the Rosicrucians the Templars gold and the fraught question of evil In addition he sketches the continuation or metamorphosis of the Grail and Temple impulses into the future including the critical balancing role of Europe between East and West To become effective this important European task which he says is continually being thwarted must be properly understood within the realm of human consciousness **Patristic Perspectives on Luke's Transfiguration** Peter Anthony, 2022-03-24 Peter Anthony explores how visionary elements in Luke's Gospel had a particular influence on early interpretation of the Transfiguration by examining the rich hermeneutical traditions that emerged particularly in the Latin West as the Transfiguration was first

depicted visually in art Anthony begins by comparing the visual and visionary culture of antiquity with that of the present and their differing interpretations of the Transfiguration He then examines the Transfiguration texts in the synoptic gospels and their interpretation in modern scholarship and the reception of the Transfiguration in 2 Peter the Apocalypse of Peter and the Acts of Peter Tertullian and Origen Proceeding to look at interpretations found in the Greek East and the Latin West Anthony finally discusses the earliest visual depictions of the Transfiguration from the sixth century onward drawn from a wealth of different art forms Anthony concludes that early commentators and artists understanding of how we see and visualise and therefore how the Transfiguration was apprehended is closer to that of the writers of the New Testament than many modern interpreters is
