Apostolic Conciliarism Of Jean Gerson:

The Apostolic Conciliarism of Jean Gerson John Joseph Ryan, 1998 John J Ryan provides a penetrating analysis of the events and motives that led the French theologian Jean Charlier de Gerson 1363 1429 to become a leading figure in the medieval conciliarist movement

A Companion to Jean Gerson Brian Patrick McGuire, 2018-11-12 The Companion to Jean Gerson provides a guide to new research on Jean Gerson 1363 1429 theologian chancellor of the University of Paris and church reformer Ten articles outline his life and works contribution to lay devotion place as biblical theologian role as humanist mystical theology involvement in the conciliar movement dilemmas as university master and conflicts with the mendicants views on women and especially on female visionaries participation in the debate on the Roman de la Rose and the afterlife of his works until the French Revolution Some of the contributors are veterans of gersonian studies while others have recently completed their dissertations All map the relevance of Gerson to understanding late medieval and early modern culture religion and spirituality

Jean Gerson and the Last Medieval Reformation Brian Patrick McGuire, 2010-11-01 In this biography of the noted French philosopher and theologian Jean Gerson the first since 1929 Brian Patrick McGuire presents a compelling portrait of Gerson as a voice of reason and Christian humanism during a time of great intellectual and social tumult in the late Middle Ages Born to a peasant father and mother in the county of Champagne Gerson 1363 1429 was the first of twelve children He overcame his modest beginnings to become a scholastic and vernacular theologian a university intellectual and a church reformer McGuire shows us the turning points in Gerson's life including his crisis of faith after becoming chancellor of the University of Paris in 1395 Through these key moments we see the deeper undercurrents of his mystical writings With their rich display of spiritual and emotional life these writings were to earn Gerson the appellation doctor christianissimus In turn they would influence many later thinkers including Nicholas of Cusa Ignatius of Loyola Francis de Sales and even Martin Luther Gerson is a man perhaps easier to admire than to love conscientious to a fault at once a pragmatist and an idealist in church politics a university intellectual who both fostered and distrusted the religious aspirations of the laity a powerful prelate who moved among the great yet never forgot his peasant origins a self revealing yet intensely private man who yearned for intimacy almost as much as he feared it McGuire ably situates Gerson in the context of his age an age replete with doctrinal controversies and the politics of papal schism on the eve of the Protestant Reformation Gerson emerges as a proponent of dialogue and discussion committed to reforming the church from within His courageous effort to renew the unity of a unique civilization bears examination in our own time

A Companion to the Great Western Schism (1378-1417), 2009-09-30 The division of the Church or Schism that took place between 1378 and 1417 had no precedent in Christianity No conclave since the twelfth century had acted as had those in April and September 1378 electing two concurrent popes This crisis was neither an issue of the authority claimed by the pope and the Holy Roman Emperor nor an issue of authority and liturgy The Great Western Schism was unique because it forced upon Christianity a

rethinking of the traditional medieval mental frame It raised question of personality authority human fallibility ecclesiastical jurisdiction and taxation and in the end responsibility in holding power and authority This collection presents the broadest range of experiences center and periphery clerical and lay male and female Christian and Muslim Theology including exegesis of Scripture diplomacy French literature reform art and finance all receive attention The Celestine Monks of France, c.1350-1450 Robert L.J. Shaw,2025-10-01 The Celestine monks of France represent one of the least studied monastic reform movements of the late Middle Ages and yet also one of the most culturally impactful Their order an austere Italian Benedictine reform of the late thirteenth century which came be known after the papal name of their founder Celestine V St Peter of Murrone arrived in France in 1300 After a period of marginal growth they flourished in the region from the mid fourteenth century founding thirteen new houses over the next hundred years taking their total to seventeen by 1450 Not only did the French Celestines expand they gained a distinctive character that separated them from their Italian brothers More urban better connected with both aristocratic and bourgeois society and yet still rigorous and reformist they characterised themselves as the Observant wing of their order having gained self government for their provincial congregation in 1380 following the arrival of the Great Western Schism 1378 1417 But as Robert L J Shaw argues their importance runs beyond monastic reform the late medieval French Celestines are a mirror of the political intellectual and Christian reform culture of their age Within a France torn by war and a Church divided by schism the French Celestines represented hope for renewal influencing royal presentation lay religion and some of the leading French intellectuals of the period including Jean Gerson **The Church, the Councils, and Reform** Gerald Christianson,Thomas M. Izbicki,Christopher M. Bellitto,2008 The Church the Councils and Reform brings together leading authorities in the field of church history to reflect on the importance of the late medieval councils This is the first book in English to consider the lasting significance of the period from Constance to Trent 1414 1563 when several councils met to heal the Great Schism 1378 and reform the church The French Monarchical Commonwealth, 1356-1560 James B. Collins,2022-05-19 Offers a new perspective on the nature of political society in the French monarchy across more than two centuries Juan de Segovia and the Fight for Peace Anne Marie Wolf,2014-05-30 Juan de Segovia d 1458 theologian translator of the Qur n and lifelong advocate for the forging of peaceful relations between Christians and Muslims was one of Europe s leading intellectuals Today however few scholars are familiar with this important fifteenth century figure In this well documented study Anne Marie Wolf presents a clear chronological narrative that follows the thought and career of Segovia who taught at the University of Salamanca represented the university at the Council of Basel 1431 1449 and spent his final years arguing vigorously that Europe should eschew war with the ascendant Ottoman Turks and instead strive to convert them peacefully to Christianity What could make a prominent thinker especially one who moved in circles of power depart so markedly from the dominant views of his day and advance arguments that he knew would subject him to criticism and even ridicule

Although some historians have suggested that the multifaith heritage of his native Spain accounts for his unconventional belief that peaceful dialogue with Muslims was possible Wolf argues that other aspects of his life and thought were equally important For example his experiences at the Council of Basel where his defense of conciliarism in the face of opposition contributed to his ability to defend an unpopular position and where his insistence on conversion through peaceful means was bolstered by discussions about the proper way to deal with the Hussites refined his arguments that peaceful conversion was preferable to war Ultimately Wolf demonstrates that Segovia's thought on Islam and the proper Christian stance toward the Muslim world was consistent with his approach to other endeavors and with cultural and intellectual movements at play throughout his career

The Mandaean Jorunn Jacobsen Buckley, 2002 The Mandaean was a gnostic sect that arose in the Middle East around the same time as Christianity This text examines the lives and religion of contemporary Mandaeans and provides an introduction to the religion showing how its ancient texts inform the living religion and vice versa

Scripture and Pluralism: Reading the Bible in the Religiously Plural Worlds of the Middle Ages and Renaissance Thomas Heffernan, Thomas E. Burman, 2005-10-01 The Mediterranean and Western European sphere in the Ancient Medieval and Early Modern Periods was a world of complex and deeply rooted religious Pluralism Jews various sects of Christians Muslims and pagans all lived side by side and interacted regularly The essays in this volume explore what happened when Christians read the Bible faced with the challenges posed by this religious pluralism Topics covered include early Christianity's use of the Bible under persecution Arab Christian Biblical study within the Islamic World Jewish Christian scholarly interaction in the Twelfth Century Renaissance and the role of late medieval vernacular editions of the Bible in paving the way for the Reformation Contributors include Thomas E Burman Andrew Gow Sidney H Griffith Thomas J Heffernan Frans van Liere E Ann Matter Bernard McGinn Constant J Mews Michael A Signer Lesley Smith and Anne Marie Wolf
