Hernández, 2009-05-01 In recent decades Chicana/o literary and cultural productions have dramatically shifted from a nationalist movement that emphasized unity to one that openly celebrates diverse experiences Charting this transformation *Postnationalism in Chicana/o Literature and Culture*

looks to the late 1970s during a resurgence of global culture as a crucial turning point whose reverberations in twenty first century late capitalism have been profound Arguing for a postnationalism that documents the radical politics and aesthetic processes of the past while embracing contemporary cultural and sociopolitical expressions among Chicana o peoples Hernndez links the multiple forces at play in these interactions Reconfiguring text based analysis she looks at the comparative development of movements within women s rights and LGBTQI activist circles Incorporating economic influences this unique trajectory leads to a new conception of border studies as well rethinking the effects of a restructured masculinity as a symbol of national cultural transformation Ultimately positing that globalization has enhanced the emergence of new Chicana o identities Hernndez cultivates important new understandings of borderlands identities and postnationalism itself

The Dialogue of Negation Jeremy Lester,2000-04-20 The dialogue between large elements of the Western and the Soviet Russian left has all too often been one of negation rather than affirmation The Dialogue of Negation pursues this argument and examines the conceptual and strategic richness of hegemony providing an overview of the key debates which have shaped its historical development Jeremy Lester situates the modern evolution of hegemony within an East West dimension and focuses in particular on the deep seated difficulties and incompatibilities of much of this interaction Lester offers a defence of Gramsci s understanding of hegemony as a key element of the revolutionary class struggle He acknowledges Gramsci s own disputes within the Marxist domain and celebrates the theoretical and practical legacy he bequeathed to those who continue the struggle to replace capitalism with socialism Lester provides a critical defence of modernity against the challenge of postmodernity arguing that it is only within the parameters of modernity that a meaningful form of socialism can succeed He seeks to highlight the inconsistencies and illogicalities of those theorists who see the transition to some kind of postmodern condition as offering new possibilities for the transcendence of capitalism
