
ANYTHING FOR A QUIET LIFE

Edited by Leslie Thomson

In *Anything for a Quiet Life* (c. 1621), Middleton returned to the world of his earlier city comedies, and of his audience: commercial London. Together with John Webster, he created an intriguing combination of the immediately topical and timelessly theatrical—the one complementing and commenting on the other. Central to this mix is cloth, as a commodity and as clothing. Consequently, disguise and discovery, which often symbolize the deceptive difference between appearance and reality in plays of the period, are here not only effective and entertaining theatrical devices but also the means of putting visual and verbal focus on the cloth trade itself. With scenes about the buying and selling of fabric literally at the heart of the action, the numerous references to clothing, cloth, and even yarn, gain in significance until the conclusion, when clothes signal the resolution to each of the plots.

For those Londoners who came to Blackfriars Theatre to watch the King's Men perform the play, this emphasis on cloth and clothing would have been especially satisfying, since there could hardly have been anyone in the audience not somehow affected by the sharp decrease in the wool trade which had begun after 1614. By 1621, about when *Anything for a Quiet Life* was being written, the unhappy consequences of a disastrous change in the control of England's cloth trade with the Continent had become distressingly apparent. Middleton and Webster produced a play that in its comic business, wordplay and symbolism seems implicitly to acknowledge the importance of cloth in the real world of their audience.

Following the Anglo-Spanish treaty of 1604, the English trade in woollens (or cloth) grew rapidly—peace meant profit. Under the Merchant Adventurers' monopoly, production in the provinces, warehousing and distribution in London, and export of cloth to the Continent were organized and regulated largely by one group. New kinds of fabric, being produced in the Low Countries and Germany especially, were beginning to threaten the dominance of English woollens both at home and abroad, but more than ten years of growth in trade had fostered stability and complacency among domestic producers, merchants, and exporters. In 1614, however, the Cokayne project precipitated disastrous changes in England's major domestic and export businesses. Until then, the Merchant Adventurers had shipped mostly undyed, undressed cloth to Germany and the Low Countries to be finished. Alderman William Cokayne, a merchant, sold James on his plan to finish cloth before it was exported, and in December 1614 a proclamation abruptly ended the Merchant Adventurers' monopoly by giving a group led

by Cokayne control over the export of cloth. The project was a fiasco. Evidence indicates that the new company, the King's Merchant Adventurers, never really intended to make the project a reality. No plans were put into place to dye and dress cloth, with the result that stocks accumulated in London, unfinished and unsold. The full story is long and complex, but the consequences were painfully simple. Before long, investment capital evaporated and the effects began to be felt in the provinces, where workers were laid off, and in the city, where distributors could not afford to warehouse unfinished stock and exporters were prevented from selling it. Almost simultaneously came a shift in domestic and foreign demand from the better quality, heavier wool England produced to the so-called 'new draperies' being manufactured on the continent. By 1617, when the Merchant Adventurers' monopoly was restored, conditions had changed irrevocably; by 1620 the English textile industry was at the beginning of a severe four-year depression (Supple). In 1621, Londoners could not but have had the cloth trade on their minds; in *Anything for a Quiet Life* Middleton and Webster can be seen to have simultaneously acknowledged and capitalized on very real and immediate social and economic concerns by writing a play focusing on cloth, clothing, and a clothseiler.

The play's dramatis personae list indicates the importance of clothing as a silent but always visible signifier of function and class in society and therefore on the stage. Especially for spectators still influenced by earlier sumptuary laws, nuances of dress were infinite and telling, offering the playwrights a visual shorthand of implication and the audience a means of placing the various characters. *Anything for a Quiet Life* is populated by figures from virtually every level of early seventeenth-century London society, something their dress would have emphasized visually. Lord Beaufort would have worn expensive fabrics and trimmings to reflect his noble status, and Lady Cressingham's rich attire would have indicated her materialism and aspirations. Down the ladder in class and in dress—if not in morality—come the other characters. The audience would have seen clothing suitable for a knight and his wife, a country gentleman, a sea captain, a citizen and wife, a lawyer and wife, a page, a steward, a surveyor, a barber, a sergeant, a yeoman, apprentices, and a band.

But clothing is more than just a way of conveying information about characters; it is also given a central role both structurally and thematically through the shop of Walter Camlet, the mercer. On the unlocalized stage for which the play was written, this shop would have been the only fictional place with a physical presence. Bolts of
