Minh-ha, 2016-07-18 In this new work renowned feminist filmmaker and postcolonial theorist Trinh T Minh ha offers a lyrical philosophical meditation on the global state of endless war and the violence inflicted by the imperial need to claim victory She discusses the rise of the police state as linked for example to U S military intervention in Iraq and Afghanistan or to China's occupation of Tibet examining legacies of earlier campaigns and the residual effects of the war on terror She also takes up the shifting dynamics of peoples resistance to acts of militarism and surveillance as well as social media and its capacity to inform and mobilize citizens around the world At once an engaging treatise and a creative gesture *Lovecidal* probes the physical and psychic conditions of the world and shows us a society that is profoundly heartsick Taking up with those who march both as and for the oppressed who walk with the disappeared to help carry them forward Trinh T Minh ha engages the spiritual and affective dimensions of a civilization organized around the rubrics of nonstop governmental subjugation economic austerity and highly technologized military conflict In doing so she clears a path for us to walk upon Along with our every step the world of the disappeared lives on **Storytelling Techniques for Digital Filmmakers** Ross Hockrow, 2013-09-16 The key elements of creating an effective film narrative which involves a significant shift in mindset from still photography to motion capture are detailed in this guide to becoming a standout digital videographer Through teaching classic cinematic techniques for storytelling while addressing contemporary digital equipment and customer standards the guide instructs such elements of filming as mixing the types of shots used charting the plot and introducing characters Equipment use is also explored through the analysis of gear for camera movement and how to create ideal lighting With a focus on high definition filming the book also provides invaluable information on obtaining high quality audio and how to make the most of video editing *The Art of Photographing Nature* Martha Hill, 1993 The first how to book by Art Wolfe America's most renowned nature photographer written in collaboration with the former photography editor of
