for years and for the past few years, the number of people who have been killed in the United States by gun violence has been increasing. In 2017, there were 39,321 gun deaths in the United States, up from 37,734 in 2016. This is a significant increase, and it is a trend that we need to address. We need to take steps to reduce the number of guns in circulation, and we need to take steps to ensure that guns are used responsibly. We need to make sure that everyone has access to the resources they need to stay safe, and we need to make sure that everyone is held accountable for their actions. We need to work together to create a safer, more secure future for all of us.
