

Alexander the Great

For a short time after their victory in the Peloponnesian War, the city-state of Sparta ruled Greece. The Spartan soldiers were known for their bravery and fighting skills, so it is very surprising that they were conquered by a smaller army from Thebes in 371 BC. The Theban army was able to accomplish this remarkable feat by using a military ~~manipulate~~ maneuver. The soldiers arranged their formation into the shape of a crescent. When the Spartans attacked, the Theban army surrounded them.

Thebes only ruled for a few years, however. In 358 BC, Philip II became king of Macedonia, a large area north of Greece. It was a ~~roughed~~ rough, mountainous country, and the people living there were very different than the Greeks. The Greeks considered themselves to be cultured and civilized, but they felt the Macedonians were barbarians.

Philip led the Macedonians to defeat the Greek city-states and became the leader of Greece. He strengthened his army and eventually ~~defeated~~ defeated all of the Greek city-states to form one large country. His goal was to combine the strength of all of the Greeks and defeat the Persians. But in 336 BC, Philip was assassinated and his son, Alexander became king.

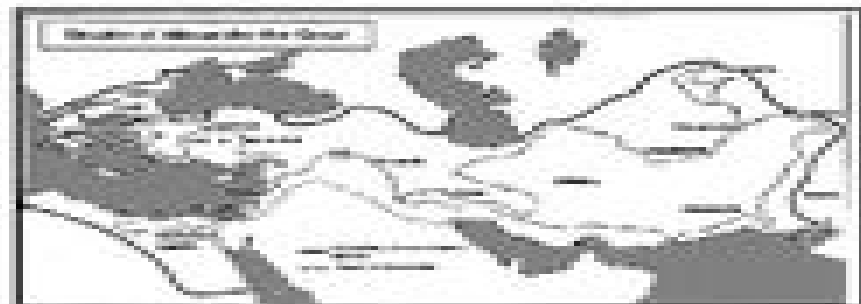

As a young man, Alexander was raised with the sons of other important Macedonians and Greeks. They studied, played games, and learned about warfare. In addition to being a great warrior, Alexander was also a scholar. His tutor was Aristotle who trained him in ~~chatteris~~ rhetoric, philosophy, literature and encouraged his interest in medicine and science.

In 336 BC, when Alexander rose to power, the empire was in disorder. Macedonia had many enemies. Alexander's first act was to order the execution of those who had killed his father. Then he began to restore order to his small empire. He ~~suggested~~ suppressed a revolt in Thessaly, just south of Macedonia. Due to his success in

battle, he was chosen to be general of the Greek forces. Alexander was only 20 years old.

After ~~getting~~ getting the old city-states of Greece, Alexander attacked Persia, Greece's old enemy, just as his father had planned. Alexander and his army were successful. The Persian leader, King Darius III, and his army were defeated. Alexander went on to expand his empire by invading Egypt, the Indus Valley, and eastern Iran.

Alexander was aware that since his empire was so large, it would be impossible for it to be ruled from a central location, so he established Greek colonies in countries he had just defeated. These colonies were run by Alexander's soldiers.
