Alexander Crummell A Study Of Civilization And Discontent:

Alexander Crummell Wilson Jeremiah Moses, 1989-08-17 This remarkable biography based on much new information examines the life and times of one of the most prominent African American intellectuals of the nineteenth century Born in New York in 1819 Alexander Crummell was educated at Queen s College Cambridge after being denied admission to Yale University and the Episcopal Seminary on purely racial grounds In 1853 steeped in the classical tradition and modern political theory he went to the Republic of Liberia as an Episcopal missionary but was forced to flee to Sierra Leone in 1872 having barely survived republican Africa s first coup He accepted a pastorate in Washington D C and in 1897 founded the American Negro Academy where the influence of his ideology was felt by W E B Du Bois and future progenitors of the Garvey Movement A pivotal nineteenth century thinker Crummell is essential to any understanding of twentieth century black nationalism

Alexander Crummell Wilson Jeremiah Moses, 1989 A biography of Alexander Crummell one of the most prominent African American intellectuals of the 19th century Exploring his ideas on Christianity civilization law and order and the destiny of the African race it also studies black American life and letters during this period

Missiology Reimagined Kent Michael Shaw I, 2024-03-11 In this compelling research Kent Michael Shaw I reveals a concise and comprehensive work on the development of Missions Theology informed by the perspectives from early African American missionaries Missiology Reimagined unveils the hidden and ignored missions history of enslaved and free African Americans during the antebellum period of the United States This book helps the student of missiology decipher how the events of the 1800s shaped the missions theology of Black Americans The enslaved of that day constructed a hermeneutic and interpreted the sacred text through a lens that contradicted their enslaver s version of Christianity Through these constructs they critically engaged in scripture and formulated a theology of mission contextualized for their lived experience This insight compelled them to risk death and re enslavement to pursue a global mandate from God These pioneering missionaries would emerge as experts in the field of global evangelism heralding them as both missionaries and missiologists Since they were practitioners and students of Scripture an applied mission s theology would materialize The reader will observe how this theological formation influenced the black church in the nineteenth century and their missiology reimagined These men and women held two titles missionary and missiologist These pioneer missionaries would emerge as early experts in the field of global evangelism As practitioners and students of scripture an applied mission s theology evolved The reader will observe how this theological formation would shape the black church in the nineteenth century and a reimagined missiology

American Claimants Sarah Meer, 2020-05-14 This book recovers a major nineteenth century literary figure the American Claimant For over a century claimants offered a compelling way to understand cultural difference across the Anglophone Atlantic especially between Britain and the United States They also formed a political talisman invoked against slavery and segregation or privileges of gender and class Later claimants were exported to South Africa becoming the fictional form for

explaining black students who acquired American degrees American Claimants traces the figure back to lost heir romance and explores its uses These encompassed real imagined and textual ideas of inheritance for writers and editors and also for missionaries artists and students The claimant dramatized tensions between tradition and change or questions of exclusion and power it offered ways of seeing activism education sculpture and dress The premise for dozens of novels and plays a trope a joke even the basis for real claims claimants matter in theatre history and periodical studies they touch on literary marketing and reprinting and they illuminate some unexpected texts These range from Our American Cousin to Bleak House Little Lord Fauntleroy to Frederick Douglass Paper writers discussed include Frances Trollope Julia Griffiths Alexander Crummell John Dube James McCune Smith Nathaniel Hawthorne and Mark Twain The focus on claimants yields remarkable finds new faces fresh angles a lost column and a forgotten theatrical genre It reveals the pervasiveness of this form and its centrality in imagining cultural contact and exchange

Encyclopedia of African American History, 1896 to the Present Paul Finkelman, 2009 Alphabetically arranged entries from A to C that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century

Heathen Kathryn Gin Lum, 2022-05-17 Philip Schaff Prize American Society of Church History S USIH Book Award Society for U S Intellectual History Merle Curti Award in Intellectual History Organization of American Historians A fascinating book Gin Lum suggests that in many times and places the divide between Christian and heathen was the central divide in American life Kelefa Sanneh New Yorker Offers a dazzling range of examples to substantiate its thesis Rare is the reader who could dip into it without becoming much better informed on a great many topics historical literary and religious So many of Gin Lum s examples are enlightening and informative in their own right Philip Jenkins Christian Century Brilliant Gin Lum s writing style is nuanced clear detailed yet expansive and accessible which will make the book a fit for both graduate and undergraduate classrooms Any scholar of American history should have a copy Emily Suzanne Clark S USIH Society for U S Intellectual History In this sweeping historical narrative Kathryn Gin Lum shows how the idea of the heathen has been maintained from the colonial era to the present in religious and secular discourses discourses specifically of race Americans long viewed the world as a realm of suffering heathens whose lands and lives needed their intervention to flourish The term heathen fell out of common use by the early 1900s leading some to imagine that racial categories had replaced religious differences But the ideas underlying the figure of the heathen did not disappear Americans still treat large swaths of the world as other due to their assumed need for conversion to American ways Race continues to operate as a heathen inheritance in the United States animating Americans sense of being a world apart from an undifferentiated mass of needy suffering peoples Heathen thus reveals a key source of American exceptionalism and a prism through which Americans have defined themselves as a progressive and humanitarian nation even as supposed heathens have drawn on the same to counter this national myth

Legislating Racism Thomas Adams Upchurch, 2014-10-17 The Civil War and Reconstruction were

characterized by two lasting legacies the failure to bring racial harmony to the South and the failure to foster reconciliation between the North and South The nation was left with a festering race problem as a white dominated society and political structure debated the proper role for blacks At the national level both sides harbored bitter feelings toward the other which often resulted in clashes among congressmen that inflamed rather than solved the race problem No Congress expended more energy debating this issue than the Fifty First or Billion Dollar Congress of 1889 1891 The Congress debated several controversial solutions provoking discussion far beyond the halls of government and shaping the course of race relations for twentieth century America Legislating Racism proposes that these congressional debates actually created a climate for the first truly frank national discussion of racial issues in the United States In an historic moment of unusual honesty and openness a majority of congressmen newspaper editors magazine contributors and the American public came to admit their racial prejudice against not only blacks but all minority races If the majority of white Americans not just those in the South harbored racist sentiments many wondered whether Americans should simply accept racism as the American way Thomas Adams Upchurch contends that the Fifty First Congress in trying to solve the race problem in fact began the process of making racism socially and politically acceptable for a whole generation inadvertently giving birth to the Jim Crow era of American history

Elevating the Race Albert George Miller, 2003 As a minister in the African Methodist Episcopal Church an army chaplain a college professor and a prolific writer Theophilus Gould Steward was one of America's leading black intellectuals during the half century following Emancipation He was not only a theologian deeply committed to challenging his church's outlook he also epitomized postbellum efforts to create an African American civil society through religious educational and social institutions integral to citizenship Steward actively constructed a theological discourse that challenged both black and white religious and secular institutions yet his tenacious pursuit of high standards often led him into conflict with the very community he served A G Miller takes a new look at this key figure in African American history to establish Steward's place among the most influential thinkers and activists of the late nineteenth century Augmenting what is already known about Steward's life with a thoughtful combination of intellectual and social history Miller presents Steward's ideas within the context of the social political economic and religious trends of his day Miller examines Steward's accomplishments and writings including his unpublished manuscripts and his overlooked Victorian novel to assess the ideas that he left to posterity and to consider how they shaped his times The book devotes individual chapters to the key themes that dominated Steward's life African American education reconciling theology with modern science the intersection of rational theology and moral virtues the contradictions of race the role of women in African American civil society and Steward's views on the military and imperialism With great insight and clarity Miller discloses in a new and original way the rich life and thought of this extraordinary man His study is both a groundbreaking analysis of Steward's legacy and an important contribution to the history of American religious thought The Author A G Miller is assistant professor of religion

and Nord Faculty Fellow at Oberlin College and an ordained minister in the Pentecostal Church *Black Resettlement and the American Civil War* Sebastian N. Page, 2021-01-28 Based on sweeping research in six languages *Black Resettlement and the American Civil War* offers the first comprehensive comparative account of nineteenth century America's greatest road not taken the mass resettlement of African Americans outside the United States Building on resurgent scholarly interest in the so called colonization movement the book goes beyond tired debates about colonization's place in the contest over slavery and beyond the familiar black destinations of Liberia Canada and Haiti Striding effortlessly from Pittsburgh to Panama Toronto to Trinidad and Lagos to Louisiana it synthesizes a wealth of individual state level and national considerations to reorient the field and set a new standard for Atlantic history Along the way it shows that what haunted politicians from Thomas Jefferson to Abraham Lincoln was not whether it was right to abolish slavery but whether it was safe to do so unless the races were separated *The Cambridge Companion to the Literature of the American Civil War and Reconstruction* Kathleen Diffley, Coleman Hutchison, 2022-08-18 The legacies of the Civil War and Reconstruction remain a central part of American life a century and a half later Drawing together leading scholars in literary studies and history this volume offers accessible treatments of major authors and genres of this period including Walt Whitman Frances Ellen Watkins Harper Rebecca Harding Davis Frederick Douglass and Charles Chesnutt as well as fiction poetry drama and life writing Although focused on literature this Companion also canvases battlefields homefronts and hospitals and discusses a range of topics including constitutional reform and presidential impeachment emancipation and Africa material culture and monuments education civil rights and reenactment *The Cambridge Companion to the Literature of the American Civil War and Reconstruction* speaks powerfully to literature's ability to help readers come to terms with a violent oppressive history while also imagining a different future
