[A Practical Guide to Sustainable Fashion](#)
Alison Gwilt, 2020-07-09 Packed with examples from groundbreaking designers such as Vivienne Westwood, Stella McCartney, Edun and People Tree, *A Practical Guide to Sustainable Fashion* is a much needed overview of current models of fashion design and production. Alison Gwilt introduces the key issues associated with the production, use and disposal of fashion clothing and gives step by step guidance on how to identify and evaluate the potential impacts of a garment during the design process. With innovative examples of best practice from international designers and brands, the chapters follow each key stage in the life cycle of a fashion garment and explores approaches such as low impact textiles, techniques, mono materiality, zero waste techniques, upcycling, repair and maintenance techniques and closed loop design systems. New to this edition: More in depth coverage of design thinking, materials, manufacture, practical techniques for creating faster recyclable fashion and new ways forward for fashion such as including the circular economy and the Sustainable Development Goals.

Economic Ideas for a Sustainable Future Bhabani Shankar Nayak, Samuel O. Idowu, Amr Khafagy, 2025-06-24 This volume examines the concept of economic sustainability through the everyday practices of education, production, distribution, consumption, economic development and public policy. It explores the economic systems and processes shaped by capitalism and how commodification has led to uneven and unsustainable development. Particular attention is given to how ideas of sustainability are constructed through education and how, without a critique of capitalism, these discussions often overlook the exploitation and commodification of both nature and human beings. This book advocates for a new paradigm based on socio-ecological transition that places sustainability and equity at the core of economic development and the political economy. It will be valuable to students and researchers interested in public policy, sustainable development and the political economy.
