The Guide to COIL Virtual Exchange Jon Rubin, Sarah Guth, 2023-07-03

This is the authoritative guide to implementing COIL Virtual Exchange conceived and co edited by one of the originators of this innovative approach to internationalization Jon Rubin COIL the acronym for Collaborative Online International Learning is a central modality of what has come to be known as virtual exchange Since its first iteration in 2002 it has gradually established itself as a mature pedagogy that is being increasingly implemented across the world and is validated by a growing body of research COIL Virtual Exchange at its most essential is a bi lateral online exchange involving the integration of existing courses across two or sometimes more institutions that are geographically and or culturally distinct To launch a COIL VE course the instructor of a class at a higher education institution in one location links online with a professor and his or her class in another region or country Together their students engage and develop joint projects usually over a continuous five to eight week period Compared to the limited number of students worldwide who can engage in study abroad COIL VE potentially opens up more equitable and inclusive participation in international education and intercultural experiences to all students involves them in rigorous disciplinary and interdisciplinary studies and promotes close and constructive engagement with students with different cultural perspectives While many COIL courses are launched by individual instructors based on their research connections and online outreach they are being increasingly supported and led by dedicated COIL Coordinators who facilitate virtual exchanges and provide professional development This comprehensive guide covers COIL VE pedagogy provides examples of what takes place in the COIL classroom and explores what instructors and staff need to know to facilitate and support a variety of COIL courses across the curriculum It addresses how institutional stakeholders especially those in leadership positions can develop and embed a successful COIL initiative at their institution It offers varied perspectives of COIL viewed from different institutional and cultural vantage points from research universities community and technical colleges and university systems and describes how COIL VE is developing in five different world regions presenting eleven case studies The book concludes with a guide to thirteen global organizations that support COIL and other forms of VE Additionally the book provides links to the COIL Connect for Virtual Exchange website <https://coilconnect.org> which includes an updated directory of organizations an expanding database of faculty and institutions participating in COIL and looking for partners course templates survey data and case studies This book offers faculty and administrators across the world whether formally involved in international education in service learning and community engagement or wanting to incorporate a cross cultural perspective in their disciplinary courses theoretical foundations

guidance on effective collaboration and the strategic and pedagogical considerations to develop robust COIL VE courses and programs

Cultivating Creative Collaboration in Student Virtual Teams in Higher Education: Design and Climate Nemiro, Jill E., 2025-07-16 Over the last twenty years creativity has been shown to be a critical element to contemporary organizations especially as global competition the need for innovation and technological advances have intensified The rise of technological advances has produced an increase in remote work and virtual teams especially within business settings to deal with global competition and the rise of non routine work However the COVID 19 pandemic generated an even greater increase in the utilization of remote work and virtual teams not only in business but in higher education as well and it appears that this trend is not going away Thus it is crucial to teach students how to work effectively in virtual teams to prepare them for their future careers Training current employees in virtual teaming skills is also necessary as more professionals are transitioning into remote or hybrid work

Cultivating Creative Collaboration in Student Virtual Teams in Higher Education: Design and Climate provides an in depth understanding of how to design academic courses and business training experiences that can offer employees and college level students hands on experiences to develop virtual teamwork skills It aims to nurture students professional development by enhancing their creativity while working in virtual teams and to assist faculty in designing and implementing effective virtual team learning experiences in their courses Covering topics such as intentional team culture information sharing and setting communication norms this book is an excellent resource for educational leaders educators instructional designers technology instructors human resource HR managers business leaders professionals researchers scholars academicians and more

Advances in Intelligent Networking and Collaborative Systems Leonard Barolli, Hiroaki Nishino, Hiroyoshi Miwa, 2019-08-14 This book presents the latest innovative research findings methods and development techniques related to intelligent social networks and collaborative systems intelligent networking systems mobile collaborative systems and secure intelligent cloud systems Offering both theoretical and practical perspectives it also reveals synergies among various paradigms in the multi disciplinary field of intelligent collaborative systems With the rapid development of the Internet we are experiencing a shift from the traditional sharing of information and applications as the main purpose of the Web to an emergent paradigm that places people at the very centre of networks making full use of their connections relations and collaboration Social networks also play a major role in the dynamics and structure of intelligent Web based networking and collaborative systems Virtual campuses communities and organizations strongly leverage intelligent networking and collaborative systems through a wide variety of formal and informal electronic relations such as business to business peer to peer and many types of online collaborative learning interactions including the emerging e

learning systems This has resulted in entangled systems that need to be managed efficiently and autonomously In addition while the latest powerful technologies based on grid and wireless infrastructures as well as cloud computing are currently greatly enhancing collaborative and networking applications they are also facing new challenges The principal purpose of the research and development community is to stimulate research that will lead to the creation of responsive environments for networking and in the long term the development of adaptive secure mobile and intuitive intelligent systems for collaborative work and learning

A Transformation Gap? Theo Farrell,Terriff Terry,Osinga Frans,2010-04-07 NATO member states are all undergoing some form of military transformation Despite a shared vision transformation has been primarily a US led process centered on the exploitation of new information technologies in combination with new concepts for networked organizations and effects based operations Simply put European states have been unable to match the level of US investment in new military technologies leading to the identification of a growing transformation gap between the US and the European allies This book assesses the extent and trajectory of military transformation across a range of European NATO member states setting their transformation progress against that of the US and examining the complex mix of factors driving military transformation in each country It reveals not only the nature and extent of the transatlantic gap but also identifies an enormous variation in the extent and pace of transformation among the European allies suggesting both technological and operational gaps within Europe
