5 Must-Know A/E Lessons in Green Building, **Reinventing Green Building** Jerry Yudelson, 2016-04-25 Buildings and their associated systems are the largest source of greenhouse gases in the world. The 2030 Challenge aims to produce zero net energy from new North American construction by 2030 while achieving a 50 percent reduction in carbon emissions from existing buildings. With less than 4 percent of commercial and residential structures in the United States and Canada certified by 2015, we seem destined to fall catastrophically short of

this target Reinventing Green Building combines a unique insider's critique of the current state of affairs with a potent vision for the future. This highly visual data-driven analysis brings together the wisdom of today's leading practitioners including Up to date information on green building issues energy economics and new technology. Dramatic new approaches to certification system design and user experience. Creative outside the box solutions using the Internet of Things big data analytics and cloud based technologies for building management. The green building revolution has failed to fulfill its promise to transform the marketplace in a meaningful way. Smart simple and sustainable Reinventing Green Building presents a new approach to certification designed to radically cut costs while dramatically increasing marketplace acceptance integrating true climate mitigation and better building performance. Jerry Yudelson dubbed The Godfather of Green by Wired magazine in 2011 has many years of professional experience in the green building field elected as a LEED Fellow and having served as the president of the Green Building Initiative.
