Green Building Best:

The World's Greenest Buildings Jerry Yudelson, 2013-01-17 The World's Greenest Buildings tackles an audacious task Among the thousands of green buildings out there which are the best and how do we know Authors Jerry Yudelson and Ulf Meyer examined hundreds of the highest rated large green buildings from around the world and asked their owners to supply one simple thing actual performance data to demonstrate their claims to sustainable operations This pivotal book presents an overview of the rating systems and shows best in class building performance in North America Europe the Middle East India China Australia and the Asia Pacific region practical examples of best practices for greening both new and existing buildings a practical reference for how green buildings actually perform at the highest level one that takes you step by step through many different design solutions a wealth of exemplary case studies of successful green building projects using actual performance data from which to learn interviews with architects engineers building owners and developers and industry experts to provide added insight into the greening process This guide uncovers some of the pitfalls that lie ahead for sustainable design and points the way toward much faster progress in the decade ahead **Sustainable Construction**

Charles J. Kibert, 2008 Sustainable Construction uses the latest US Green Building Council's Leadership in Energy and Environmental Design standard to explain the best practices in building procurement and delivery systems *Sustainability on University Campuses: Learning, Skills Building and Best Practices* Walter Leal Filho, Ugo Bardi, 2019-06-03 The implementation of sustainability initiatives on campuses is an essential component of promoting sustainability in the higher education context In addition to reflecting an awareness of environmental issues campus programmes demonstrate how seriously universities take sustainability at the institutional level There is a lack of truly interdisciplinary publications that comprehensively address the issue of campus greening and there is an even greater need for publications that do so at a truly international level This book meets these needs It is one of the outcomes of the Second Symposium on Sustainability in University Campuses SSUC 2018 which was jointly organised by the University of Florence Italy Manchester Metropolitan University UK the Research and Transfer Centre Sustainable Development and Climate Change Management and the European School of Sustainability Science and Research at the Hamburg University of Applied Sciences Germany in cooperation with the Inter University Sustainable Development Research Programme IUSDRP The book showcases examples of campus based research and teaching projects regenerative campus design low carbon and zero carbon buildings waste prevention and resilient transport among others Ultimately it demonstrates the role of campuses as platforms for transformative social learning and research and explores the means by which university campuses can be made more sustainable The aims of this publication are as follows to provide universities with essential information on campus greening and sustainable campus development initiatives from around the world to share ideas and lessons learned in the course of research teaching and projects on campus greening and design especially successful initiatives and good practice and to

introduce methodological approaches and projects intended to integrate the topic of sustainable development in campus design and operations This book gathers contributions from researchers and practitioners in the field of campus greening and sustainable development in the widest sense from business and economics to the arts administration and the environment and hailing from Europe Latin America North America and Asia

The World's Greenest Buildings Jerry Yudelson,Ulf Meyer,2013 Provides the first comparison of green building performance using cost and energy use data that has been verified by independent third parties

Positive Development Janis Birkeland,2012-05-16 Janis Birkeland presents the innovative new paradigm of Positive Development in which the built environment provides greater life quality health amenity and safety for all without sacrificing resources or money With a different form of design development itself can become a sustainability solution A cornerstone of this new paradigm is the eco retrofitting of the vast urban fabric we already inhabit The author presents a revolutionary new tool called SmartMode to achieve this end This book challenges everyone working in or studying the areas of sustainable development planning architecture or the built environment to rethink their current ideas and practices

Issues in Green Building and the Federal Response Eric A. Fischer,2010-11 Contents 1 Intro 2 What Is Green Building GB Energy Water Materials Waste Health Siting Serviceability Disaster Resistance Integration Balance Among Elements Balance Across Stages Interdependence Leadership in Energy and Environ Design LEED Other Systems Performance Cost Measurement Market Penetration Approach 3 Legislative and Policy Framework Energy Policy Act of 1992 and 2005 Energy Independence and Security Act of 2007 ARRA of 2009 Executive Order 13423 and 13514 4 Programs and Activities of Selected Fed Agencies GSA DoE EPA Office of the Fed Environ Exec NIST HUD 7 Issues for Congress Oversight Adoption and Implementation of GB Charts and tables

Good Green Homes Jennifer Roberts,2009-09 Green It conjures images of a meadow in spring for some and the color of money for others What does green have to do with our homes In essence green building or sustainable building means being smart about how we use energy water and building materials so that we can live well without needlessly damaging the environment Creating a good green home isn't just about conservation about using less or saving more although that's certainly part of it It's about creating better homes that are easier on the environment less expensive over the long term and more delightful to come home to That's the message Jennifer Roberts wants to share in Good Green Homes the ultimate new guide for people who want to live in comfortable healthy environmentally conscious homes With some simple steps outlined in this book you can save money and do your part to help save the environment For instance using an energy efficient light bulb saves you money It also results in less demand for electricity which in turn results in less pollution from power plants which may help a child with asthma breathe a little easier If you associate green built housing with the unconventional or the quirky tree houses geodesic domes dwellings constructed of tires or soda bottles think again Perfect for homeowners remodelers renters who might be surprised by how much is within their power to change architects builders and interior designers this book lays out seven fundamental

principles of green building illustrated with more than 150 color and 20 black and white photographs of more than twenty five homes Jennifer Roberts launched two retail stores in San Francisco specializing in environmentally sensible consumer products including household goods and is a freelance writer and editor on topics that include energy efficient building design and systems

Regulation and Best Practices in Public and Nonprofit Marketing Lucica Matei, 2010 The volume contains the papers presented during the 9th International Congress of the International Association on Public and Nonprofit Marketing IAPNM entitled Regulation and Best Practices in Public and Nonprofit Marketing Structured in accordance with the sessions of the mentioned Congress the volume includes papers and relevant contributions on marketing research development in the public administration healthcare and social assistance higher education local development and more generally nonprofit organizations The social marketing specific issues take an important part of the volume giving the diversity of the approached topics as well as the large number of researchers concerned with this matter Though of small dimensions the contents of the sessions dedicated the revival and reinvention of public marketing must be underlined as well as of the transfer of public marketing best practices to the South Eastern European states Publishing this volume represents a term of the interest expressed by over 40 academic and research groups in Europe and other continents with interests in the public and nonprofit marketing field as well as in other European states bodies that develop specific empirical studies
