Technologies in Agroecology and Organic Farming Massimo De Marchi, Alberto Diantini, Salvatore Eugenio Pappalardo, 2022-09-29 Although organic farming and agroecology are normally not associated with the use of new technologies its rapid growth new technologies are being adopted to mitigate environmental impacts of intensive production implemented with external material and energy inputs GPS satellite images GIS drones help conventional farming in precision supply of water pesticides fertilizers Prescription maps define the right place and moment for interventions of machinery fleets Yield goal remains the key objective integrating a more efficient use of resources toward an economic environmental sustainability Technological smart farming allows extractive agriculture entering the sustainability era Societies that practice agroecology through the development of human environmental co evolutionary systems represent a solid model of sustainability These systems are characterized by high quality agroecosystems and landscapes social inclusion and viable economies This book explores the challenges posed by the new geographic information technologies in agroecology and organic farming It discusses the differences among technology laden conventional farming systems and the role of technologies in strengthening the potential of agroecology The first part reviews the new tools offered by geographic information technologies to farmers and people The second part provides case studies of most promising application of technologies in organic farming and agroecology the diffusion of hyperspectral imagery the role of positioning systems the integration of drones with satellite imagery The third part of the book explores the role of agroecology using a multiscale approach from the farm to the landscape level This section explores the potential of Geodesign in promoting alliances between farmers and people and strengthening food networks whether through proximity urban farming or asserting land rights in remote areas in the spirit of agroecological transition The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons 4.0 license

Soil Sisters Lisa Kivirist, 2016-01-01 The first practical hands on guide for female farmers Women in agriculture are sprouting up in record numbers but they face a host of distinct challenges and opportunities Blending What Color is Your Parachute style career advice with sustainable agriculture practices viewed through a gender lens Soil Sisters provides a wealth of invaluable information for fledgling female farming entrepreneurs The first manual of its kind this authoritative and comprehensive blueprint presents practical considerations from a woman's perspective covering everything from business planning to tool use and ergonomics to integrating children and family in farm operations Key topics include Finding your niche mid life encore careers young

beginning boomerangs and more From concept to crop diversified farm start up basics Resources grants loans for women farmers Soil Sisters also contains case studies inspirational ideas and savvy advice nuggets from over 100 successful women farmers and advocates Targeted specifically to members of the fastest growing demographic in local agriculture this highly readable guide is practical and pragmatic Chick Lit for today s food scene *Farming for the Long Haul* Michael Foley,2019-02-01 It s all but certain that the next fifty years will bring enormous not to say cataclysmic disruptions to our present way of life World oil reserves will be exhausted within that time frame as will the lithium that powers today s most sophisticated batteries suggesting that transportation is equally imperiled And there s another even more dire limitation that is looming at current rates of erosion the world s topsoil will be gone in sixty years Fresh water sources are in jeopardy too In short the large scale agricultural and food delivery system as we know it has at most a few decades before it exhausts itself and the planet with it Farming for the Long Haul is about building a viable small farm economy that can withstand the economic political and climatic shock waves that the twenty first century portends It draws on the innovative work of contemporary farmers but more than that it shares the experiences of farming societies around the world that have maintained resilient agricultural systems over centuries of often turbulent change Indigenous agriculturalists peasants and traditional farmers have all created broad strategies for survival through good times and bad and many of them prospered They also developed particular techniques for managing soil water and other resources sustainably Some of these techniques have been taken up by organic agriculture and permaculture but many more of them are virtually unknown even among alternative farmers This book lays out some of these strategies and presents techniques and tools that might prove most useful to farmers today and in the uncertain future **Resilient Agriculture: Expanded & Updated Second Edition** Laura Lengnick,2022-06-14 Real world stories from the frontlines of climate change resilience and the future of food Practical insights and plenty of examples of how we can reshape our food system to one that is resilient and regenerative Mathis Wackernagel Ph D founder and president Global Footprint Network co author Ecological Footprint Inspiring and practical at a time when we desperately need both Dr Anne Waple founder and CEO Earth s Next Chapter Brilliantly argues that it isn t some vague notion of technology that will show us the way forward but people working together and carefully stewarding the land Mark Bittman author Animal Vegetable Junk and How to Cook Everything CLIMATE CHANGE PRESENTS an unprecedented challenge to food and farming in the U S and beyond Damaging weather variability and extremes capture the headlines but more subtle changes caused by hotter summer nights warmer winters and a longer growing season have far reaching effects on the land people and communities that feed us This expanded and updated edition of Resilient Agriculture takes you beyond the headlines and the hype to shine a light on agricultural climate solutions with the power to cultivate new American foodways that are just sustainable regenerative and resilient Updated content includes Current and expected changes in regional weather patterns that disrupt food and farming New adaptation stories

from sustainable climate smart organic and regenerative farmers and updates on the producers featured in the first edition Real world applications of resilience thinking that connect the dots between food justice sustainable development regenerative economy and planetary health A companion website with stories videos issue briefs reading guides and more Whether you are working in food and farming or are simply an interested eater Resilient Agriculture will take you on a journey into real world resilience solutions with the power to regenerate the well being of land people and community no matter the challenges ahead What would a more resilient food system look like Lengnick answers that question with this path breaking delightfully informative book Richard Heinberg senior fellow Post Carbon Institute author Power Limits and Prospects for Human Survival A guidepost for building a better and more resilient food system Dr Gabrielle Roesch McNally director Women for the Land American Farmland Trust

The Carbon Farming Solution Eric Toensmeier,2016 Agriculture is rightly blamed as a major culprit of our climate crisis But in this groundbreaking new book Eric Toensmeier argues that agriculture specifically the subset of practices known as carbon farming can and should be a linchpin of a global climate solutions platform

Back to the Roots Sara Shostak,2021-05-14 Across the Commonwealth of Massachusetts urban farmers and gardeners are reclaiming cultural traditions linked to food farming and health challenging systemic racism and injustice in the food system demanding greater community control of resources in marginalized neighborhoods and moving towards their visions of more equitable urban futures As part of this urgent work urban farmers and gardeners encounter and reckon with both the cultural meanings and material legacies of the past Drawing on their narratives Back to the Roots demonstrates that urban agriculture is a critical domain for explorations of and challenges to the long standing inequalities that shape both the materiality of cities and the bodies of their inhabitants

State of knowledge of soil biodiversity - Status, challenges and potentialities Food and Agriculture Organization of the United Nations ,Global Soil Biodiversity Initiative,Secretariat of the Convention of Biological,European Commission,Intergovernmental Technical Panel on Soils,2020-12-04 There is increasing attention to the importance of biodiversity for food security and nutrition especially above ground biodiversity such as plants and animals However less attention is being paid to the biodiversity beneath our feet soil biodiversity which drives many processes that produce food or purify soil and water This report is the result of an inclusive process involving more than 300 scientists from around the world under the auspices of the FAO s Global Soil Partnership and its Intergovernmental Technical Panel on Soils the Convention on Biological Diversity the Global Soil Biodiversity Initiative and the European Commission It presents concisely the state of knowledge on soil biodiversity the threats to it and the solutions that soil biodiversity can provide to problems in different fields It also represents a valuable contribution to raising awareness of the importance of soil biodiversity and highlighting its role in finding solutions to today s global threats
