Birth Trap:

Current Catalog National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 China's Population Aging and the Risk of 'Middle-income Trap' Xueyuan Tian, 2017-07-05 This book includes a series of reports that mainly discuss the Middle Income Trap against the backdrop of population ageing in China It also offers practical suggestions on how to avoid it properly Concretely it argues that the government should accelerate the transition of economic development modes resolve concentrated social conflicts promote a balanced rural and urban development during the process of urbanization and mitigate the effects of population ageing by fostering strengths and avoiding weaknesses As for the challenges posed by population ageing in China it puts forward five core suggestions tailored to China s unique situation Assessing a number of real world challenges the general report and the special reports combine theory and empirical findings using primary data for their analyses Given the wealth of essential information it provides the book offers a valuable reference resource for decision makers

A Good Birth, A Safe Birth Diana Korte, 1992-09-16 Based on a survey of two thousand women and responses from readers of the first and second editions this complete and accurate guide enables women and their partners to take control of the childbirth experience Diana Korte and Roberta M Scaer both long time La Leche leaders analyze today s childbirth options and help readers to choose among them to find Dr Right or a midwife and perhaps a labor assistant too and to pick a hospital birthing center or home birth They describe the pros and cons of medications fetal monitoring induction of labor and other medical interventions during birth and they tell readers how to avoid an unnecessary cesarean section and ensure that all their wishes are followed In chapters such as If You Don t Know Your Options You Don t Have Any The Obstetricians Black Bag of Interventions and How to Have a Normal Vaginal Birth and Avoid an Unnecessary Cesarean Korte and Scaer are refreshingly frank but never dogmatic they want their readers to decide for themselves what s best for them

Ethics and Human Reproduction Christine Overall, 2012-10-11 In Ethics and Human Reproduction Christine Overall blends feminist theory and philosophical expertise to provide a coherent analysis of a range of moral questions and social policy issues pertaining to human reproduction and the new reproductive technologies Topics covered include sex preselection artificial insemination prenatal diagnosis abortion in vitro fertilisation and embryo transfer surrogate motherhood and childbirth Throughout the book the author examines the values and assumptions underlying common perceptions of sexuality and fertility the status of the foetus the value of children the nature of parenting and the roles of women In so doing she develops a feminist approach to answering questions about reproductive rights and freedoms the value of a genetic link between mother and their offspring the commodification of reproduction and the effects of reproductive technologies on women and children This book should be essential reading for anyone interested in the new reproductive technologies biomedical ethics and women s health

Birth as an American Rite of Passage Robbie E. Davis-Floyd, 2004-03-15 Why do so many American women allow themselves to become enmeshed in the standardized

routines of technocratic childbirth routines that can be insensitive unnecessary and even unhealthy Anthropologist Robbie Davis Floyd first addressed these questions in the 1992 edition Her new preface to this 2003 edition of a book that has been read applauded and loved by women all over the world makes it clear that the issues surrounding childbirth remain as controversial as ever

Unassisted Childbirth Laura Kaplan Shanley, 2012-02-22 This book reveals how giving birth is an inherently safe relatively painless process that is best performed without the assistance of doctors or midwives and how confidence and a positive attitude reduces fear and therefore the pain of labor According to Laura Kaplan Shanley a renowned leader in the natural birth movement human birth is inherently safe and relatively painless provided we refrain from physical or psychological interference The problems often associated with birth can be traced to three main factors poverty unnecessary medical intervention and fear When these causes are eliminated most women can give birth either alone or with the help of a partner friends or family This second edition of *Unassisted Childbirth* leads with a history of childbirth and then describes how most deliveries occur today detailing why these processes don't serve mothers or babies The information in this unique book gives women yet another legitimate choice in childbirth that doesn't rely on doctors and technology and allows parents birth professionals and general readers to reexamine their most basic ideas about birth and learn to think in new ways

Birth Trap Yvonne Brackbill, June Rice, Diony Young, 1984

Birth in Four Cultures Brigitte Jordan, 1992-11-18 While the process of childbirth is in some sense everywhere the same it is also everywhere different in that each culture has produced a birthing system that is strikingly dissimilar from the others Based on her fieldwork in the United States Sweden Holland and Yucatan Jordan develops a framework for the discussion and investigation of different birthing systems Illustrated with useful examples and lively anecdotes from Jordan's own fieldwork the Fourth Edition of this innovative comparative ethnography brings the reader to a deeper understanding of childbirth as a culturally grounded biosocially mediated and interactionally achieved event

Opposition and Intimidation Alesha Doan, 2009-09-15 The abortion fight has long been a crucible of political tactics with both sides employing strategies ranging from litigation to civil disobedience to outright violence Anti abortion activists have arguably been more tactically innovative than their pro choice peers *Opposition and Intimidation* looks at how their use of political harassment fits or doesn't with more conventional political efforts in the struggle over abortion Alesha Doan's insightful interviews and observations powerfully portray anti abortion activists relationship to the objects of their protest Her portrait is augmented by thorough quantitative analysis of harassment's role within the movement's multitiered strategy a strategy that Doan shows has forced a decline in the availability and popularity of abortions Using her unique study of the anti abortion movement as a model Doan extends her findings to propose a novel and valuable theory of the new politics of harassment An interesting and sophisticated account Seamlessly weaves narrative and analysis tying local action to national strategy Explores uncharted territory in the abortion controversy and expands our understanding of political action Deborah R McFarlane University of New Mexico For 40 years

abortion politics have been endlessly fascinating to American scholars and journalists alike because they generate unique political phenomena that challenge traditional theories of political behavior In this book Doan goes straight to the heart of the matter by describing evaluating and explaining one of the most characteristic and complex of these phenomena political harassment In a well written narrative that weaves qualitative and quantitative data she gives us the first scholarly look at this political tactic whose relevance and use go well beyond American abortion politics Chris Mooney University of Illinois at Springfield The book contributes to political theory and knowledge by adding new empirical data gathered from interviews with those in the front lines of the struggle over abortion The author refines and develops a category of unconventional political participation political harassment of nongovernmental actors and explains why it is particularly effective in undermining the rights of women seeking abortions as well as the rights of abortion service providers Nikki R Van Hightower Texas A M University Alesha E Doan is Assistant Professor of Political Science at the University of Kansas
