Black Bondage In The North:

Black Bondage in the North Edgar J. McManus, 2001-11-01 This history of the Northern slave system examines its operation from its colonial beginnings to its dissolution In the early 19th century the author sees that economic displacement allows an emancipation of blacks that is at least as beneficial to the masters as to the blacks

Evangelicalism and the Politics of Reform in Northern Black Thought, 1776-1863 Rita Roberts, 2011 During the revolutionary age and in the early republic when racial ideologies were evolving and slavery expanding some northern blacks surprisingly came to identify very strongly with the American cause and to take pride in calling themselves American In this intriguing study Rita Roberts explores this phenomenon and offers an in depth examination of the intellectual underpinnings of antebellum black activists She shows how conversion to Christianity led a significant and influential population of northern blacks to view the developing American republic and their place in the new nation through the lens of evangelicalism American identity therefore even the formation of an African ethnic community and later an African American identity developed within the evangelical and republican ideals of the revolutionary age Evangelical values Roberts contends exerted a strong influence on the strategies of northern black reformist activities specifically abolition anti racism and black community development The activists and reformers commitment to the United States and firm determination to make the country live up to its national principles hinged on their continued faith in the possibility of the collective transformation of all Americans The people of the United States both black and white they believed would become a new citizenry distinct from any population in the world because of their commitment to the tenets of the Christian republican faith Roberts explores the process by which a collective identity formed among northern free blacks and notes the ways in which ministers and other leaders established their African identity through an emphasis on shared oppression She shows why in spite of slavery s expansion in the 1820s and 1830s northern blacks demonstrated more not less commitment to the nation Roberts then examines the Christian influence on racial theories of some of the major abolitionist figures of the antebellum era including Frederick Douglass Martin Delany and especially James McCune Smith and reveals how activists sense of their American identity waned with the intensity of American racism and the passage of laws that further protected slavery in the 1850s But the Civil War and Emancipation Proclamation she explains renewed hope that America would soon become a free and equal nation Impeccably researched **Evangelicalism and the Politics of Reform in Northern Black Thought 1776 1863** offers an innovative look at slavery abolition and African American history

Northern Slave Black Dakota Walt Bachman, 2013-03-19 Born a slave in free territory Joseph Godfrey died widely reviled for his controversial role in the U S Dakota War of 1862 Separated from his mother at age five when his master sold her Joseph Godfrey was kept in bondage in Minnesota to serve the fur trade elite To escape his masters beatings and abuse he sought refuge in his tee

Race and Nation in the Age of Emancipations Whitney Nell Stewart, John Garrison Marks, 2018-04-15 Over the long nineteenth century African descended peoples used the

uncertainties and possibilities of emancipation to stake claims to freedom equality and citizenship In the process people of color transformed the contours of communities nations and the Atlantic World Although emancipation was an Atlantic event it has been studied most often in geographically isolated ways The justification for such local investigations rests in the notion that imperial and national contexts are essential to understanding slaving regimes Just as the experience of slavery differed throughout the Atlantic World so too did the experience of emancipation as enslaved people's paths to freedom varied depending on time and place With the essays in this volume historians contend that emancipation was not something that simply happened to enslaved peoples but rather something in which they actively participated By viewing local experiences through an Atlantic framework the contributors reveal how emancipation was both a shared experience across national lines and one shaped by the particularities of a specific nation Their examination uncovers in detail the various techniques employed by people of African descent across the Atlantic World allowing a broader picture of their paths to freedom Contributors Ikuko Asaka Caree A Banton Celso Thomas Castilho Gad Heuman Martha S Jones Philip Kaisary John Garrison Marks Paul J Polgar James E Sanders Julie Saville Matthew Spooner Whitney Nell Stewart and Andrew N Wegmann

European and Non-European Societies, 1450-1800 Robert Forster, 2019-07-16 First published in 1997 this is the first of two volumes It looks at the process of European expansion which brought into contact societies and cultures across the world which had been initially alien to one another Conflict and violent conflict was one aspect of this interaction but accommodation mutual adaptation and institutional and behavioural synthesis were also present though often biased in favour of European norms The intent of this book is to avoid treating colonization dominance and exploitation as the only focuses of attention In the first volume Robert Forster explores issues of formative influences the impact of Eurocentrism on historiography and the reaction against it and the differing approaches and perceptions of the Europeans notably the Spanish French and English In this period he distinguishes three modes of interaction that of the trading empires generally in Africa and Asia where the European control of the encounter was slighter and those of the regions of settlement as in North America and of exploitation typified by the Caribbean where the European impact was profound The second volume focuses on the Americas and uses the topics of religion class gender and race as its points of entry *John Jay and Alexander Hamilton on Black Enslavement* Arthur Scherr, 2025-01-10 In this groundbreaking study Arthur Scherr examines the positions on slavery held by two of the most famous New Yorkers of the early American Republic John Jay and Alexander Hamilton Using Hamilton's 1779 proposal to free Southern slaves on the condition that they fight in the Continental Army as a starting point Scherr assesses the pair's positions on enslavement Utilizing often untouched resources Scherr offers a re-evaluation of Hamilton and Jay's modern status as antislavery icons [Homicide Justified](#) Andrew T. Fede, 2017-07-15 This comparative study looks at the laws concerning the murder of slaves by their masters and at how these laws were implemented Andrew T Fede cites a wide range of cases across time place and circumstance to illuminate legal judicial and

other complexities surrounding this regrettably common occurrence These laws had evolved to limit in different ways the masters rights to severely punish and even kill their slaves while protecting valuable enslaved people understood as property from wanton destruction by hirers overseers and poor whites who did not own slaves To explore the conflicts of masters rights with state and colonial laws Fede shows how slave homicide law evolved and was enforced not only in the United States but also in ancient Roman Visigoth Spanish Portuguese French and British jurisdictions His comparative approach reveals how legal reforms regarding slave homicide in antebellum times like past reforms dictated by emperors and kings were the products of changing perceptions of the interests of the public of the individual slave owners and of the slave owners families heirs and creditors Although some slave murders came to be regarded as capital offenses the laws consistently reinforced the second class status of slaves This influence Fede concludes flowed over into the application of law to free African Americans and would even make itself felt in the legal attitudes that underlay the Jim Crow era **Catalog**
