The Feminist

Encyclopedia of Italian Literature Rinaldina Russell, 1997-07-16 Over the last 20 years there has been an increasing interest in feminist views of the Italian literary tradition While feminist theory and methodology have been accepted by the academic community in the U S the situation is very different in Italy where such work has been done largely outside the academy Among nonspecialists knowledge of feminist approaches to Italian literature and even of the existence of Italian women writers remains scant This reference work the first of its kind on Italian literature is a companion volume for all who wish to investigate Italian literary culture and writings both by women and by men in light of feminist theory Included are alphabetically arranged entries for authors schools movements genres and forms figures and types and similar topics related

to Italian literature from the Middle Ages to the present Each entry is written by an expert contributor and summarizes feminist thought on the subject Entries provide brief bibliographies and the volume concludes with a selected general bibliography of major studies This volume covers eight centuries of Italian literature from the Middle Ages to the present Included are entries for major canonical male authors such as Dante Petrarch and Boccaccio as well as for female writers such as Lucrezia Marinella and Gianna Manzini These entries discuss how the authors have shaped the image of women in Italian literature and how feminist criticism has responded to their works Entries are also provided for various schools and movements such as deconstruction Marxism and new historicism for genres and forms such as the epic devotional works and misogynistic literature for figures and types such as the enchantress the witch and the shepherdess and for numerous other topics Each entry is written by an expert contributor summarizes the relationship of the topic to feminist thought and includes a brief bibliography The volume closes with a selected general bibliography of major studies **Dark Mother**

Lucia Chiavola Birnbaum, 2001 Bringing a feminist perspective to contemporary findings of geneticists and archeologists Lucia Chiavola Birnbaum cultural historian points out that the oldest veneration we know is of a dark mother of central and south Africa whose signs ochre red and the pubic V were taken by african migrants after 50 000 BCE to caves and cliffs of all continents The oldest sanctuary in the world was created in 40 000 BCE by african migrants in Har Karkom later called Mt Sinai foundation place of judaism christianity and islam Lucia documents the continuing memory of the dark mother and her values in prehistoric images of the dark mother in historic black madonnas and in other dark women divinities whose sanctuaries are on african paths She tracks the memory in rituals and stories of her sicilian grandmothers in persecution of dark others in patriarchal Europe and the United States in the rise of nonviolent dark others since the 1960s in the banners of the 1995 world conference of women at Beijing and in art She finds the dark mother s values justice with compassion equality and transformation in everyday and celebratory rituals of the world s subaltern cultures and suggests that the image and values are in the submerged memories of everyone *Italy in Uncertain Times* Carla Monteleone, 2019-05-14 This book analyzes how variations in the traditional pillars of Italian foreign policy the US the EU and multilateralism can be related to changes in the US led international hegemonic order and to the role that Italy plays within that order To explore these variations the book proposes an analysis of the Italian voting and sponsoring behavior at the UN in the period 2000 2017 in both the General Assembly and the Security Council and emphasizes the importance of the latter forum to detect how Italian behavior reflects changes at the international system level By focusing on the Italian coalition behavior the book explores how Italy as a status seeking middle power has traditionally played the role of coalition facilitator adapting its foreign policy to be part of a coalition of European states and building on this coalition to increase its contribution to the maintenance of the international system in support of the US led order Ultimately this behavior also contributed to its status However at a moment when traditional coalitions are reshuffling and elements of uncertainty are present elements of volatility are present

in Italian foreign policy especially in the choice of intra European coalition partners Italy still builds on a coalition of European states and still does so in support of the US and its authority in the international hegemonic order But changes in the bargaining environment are making the facilitation of a coalition of European states more difficult and less rewarding The book also highlights ongoing challenges at both the domestic and international level that might lead to more marked discontinuities in the traditional Italian foreign policy behavior
