strong talent pipeline and reduce turnover

*EDUCATION Vs. SKILLS IN FUTURE* SHIKHAR SINGH (THE ZENITH), In a world rapidly evolving due to technological advancements the age old debate between formal education and practical skills has gained new significance Education vs Skills Navigating the Future of Work is a thought provoking book that delves into this critical issue offering valuable insights for individuals educators and policymakers grappling with the challenges of the 21st century As the authors guide you through the pages of this enlightening book they explore the changing landscape of work and employment showcasing how the traditional model of acquiring a formal education as a pathway to a successful career is undergoing a profound transformation With real world examples and in depth analysis the book demonstrates the growing importance of practical skills adaptability and lifelong learning in an era where industries are constantly disrupted This book is an essential read for anyone seeking to understand the delicate balance between traditional education and practical skills in a world where adaptability and agility are prized more than ever Whether you are a student deciding your educational path an educator shaping curriculum or a policymaker charting the course of your nation s workforce development Education vs Skills Navigating the Future of Work is your comprehensive guide to thriving in the age of technological disruption

*Transparent Leadership* Alan T. Belasen, PhD, Ariel R. Belasen, PhD, 2025-12-02 Establishing a culture of trust in organizations and strengthening the middle line are both critical for implementing innovation especially during major disruptions Work units and teams operate in environments that are largely influenced by broader organizational and institutional goals where middle managers are most needed for guiding and directing the staff to carry out change Recently however the value of middle managers has come under attack Despite their valuable contributions that often have gone unnoticed by senior executives middle managers have regularly been viewed as non value added practitioners who consume resources but do not add value to products or services Further as technology advances and social media allow executives to interact more directly with stakeholders it also removes middle management from the communication loops or the decision making process Conscious about the potential of being eliminated demoted or bypassed some middle managers attempt to prove their premium by working excessively hard thus becoming hyper effective working longer hours with a desire to perform their roles better Surprisingly however executives who react harshly to these attitudes and behaviors also typecast middle managers as being unmotivated and needed to be further bypassed or often incentivized monetarily to accomplish important tasks Neglecting middle managers strengths or focusing on negative attributes and weaknesses creates conditions of failure harmful to employees and organizations Transparent Leadership Bridging the Trust Gap Between Senior Executives and Middle Managers focuses on trustworthy relationships between senior executives and middle managers A proven framework of trustworthy leadership is presented as a practical guide for leaders and professionals wishing to gain skills for building and maintaining trust in the workplace It provides practical strategies and assessment tools for bridging the trust gap between executives and middle managers
