## **Becoming Asian American Second Generation Chinese And Korean American Identities:**

Becoming Asian American Nazli Kibria, 2003-05-22 Based on interviews with second generation Chinese and Korean Americans this book is filled with a number of illuminating empirical findings American Journal of Sociology In *Becoming Asian American* Nazli Kibria draws upon extensive interviews she conducted with second generation Chinese and Korean Americans in Boston and Los Angeles who came of age during the 1980s and 1990s to explore the dynamics of race identity and adaptation within these communities Moving beyond the frameworks created to study other racial minorities and ethnic whites she examines the various strategies used by members of this group to define themselves as both Asian and American In her discussions on such topics as childhood interaction with non Asian Americans college work and the problems of intermarriage and child raising Kibria finds wide discrepancies between the experiences of Asian Americans and those described in studies of other ethnic groups While these differences help to explain the unusually successful degree of social integration and acceptance into mainstream American society enjoyed by this model minority it is an achievement that Kibria's interviewees admit they can never take for granted Instead they report that maintaining this acceptance requires constant effort on their part Kibria suggests further developments may resolve this situation especially the emergence of a new kind of pan Asian American identity that would complement the Chinese or Korean American identity rather than replace it **A**
