Beyond the Fire and the Rain Wilbert Williams Jr. M.D.,2013-02-14 In July 1978 Dr Wilbert Williams Jr was standing on a street corner in Brooklyn New York afraid for his life It had been less than three months since he was awarded a medical degree from Albany Medical College in upstate New York yet there he was enduring racial slurs from a group of angry white people who hated him simply because of the color of his skin Even as the police stood guarding him the group continued to taunt him with the words He can go back where he came from In his poignant memoir Williams narrates the story of how he beat overwhelming odds as an African American youth growing up in a public housing project in Brooklyn New York to eventually become a physician While chronicling a journey that took him from the streets of New York through the challenges of medical school to the beautiful Caribbean island of St Croix he details how he learned to prevail over racism anxiety and depression in order to achieve his dream of becoming a doctor Dr Williams inspiring story offers motivation to soar over the challenges of life and reach for the stars **"The Land Beyond Time" Adventure in the Amazon** Alexander Molnar

Jr.,2000-05-19 The Land Beyond Time is a non stop fast paced action packed adventure that takes place in the jungles of the Amazon River It is a story about traitors sabotage espionage greed hate love and romance cold blooded murder and justice It is the story about the trials and tribulations of a dozen human beings whos sabotaged aircraft crashes into the Amazon jungle The crash survivors 6 men and 6 women including 2 drug cartel bosses being extradited to the US now must compete against their individual fears each other and those unknown unexplained challenges facing them in the hot wet dangerous jungle The terrifying but strange animals that abound there like the giant spiders boars anacondas and crocodiles two hostile tribes and the headhunters a Colombian drug cartel group of professional killers coming to rescue their bosses and a small but elite team of US Marines conducting search and rescue operations for the crash survivors all are tossed together in the jungles of the Amazon Our adventure begins during December 1999 in Lima Peru when a US military aircraft C141 preparing to take a number of government passengers back to the US is commandeered by an Embassy official He orders the aircraft to take

on 10 additional passengers including two recently captured Colombian drug lords being extradited to the US. Hours into the flight the plane is sabotaged by someone onboard and it crashes into the Amazon River dumping the survivors into the hostile terrain north of Manaus, Brazil. Two of the 12 crash survivors are immediately separated from the main group and have adventures of their own to contend just to remain alive. The remaining survivors are captured by one of two hostile tribes, the Ingou and Sangou. The survivors are taken to the Ingou village and interrogated while the second tribe prepares to attack the Ingou village to prevent an escaped prisoner's arrival there who possesses information which could change the delicate balance of power in the jungle. Back in Peru, an Embassy official is fingered as an espionage agent for the major drug cartel. The official gets nervous and runs to his new bosses in Colombia. Meanwhile, the cartel sends 24 professional killers to retrieve their two drug bosses from the sabotaged aircraft. Their additional instructions are to eliminate all the remaining passengers. When the aircraft fails to show up at Manaus as planned, the cartel's killers immediately begin a search pattern and within hours of finding the crashed aircraft, their journey begins. Back in Lima, the Non-Commissioned Officer in Charge (NCOIC) of the Marine Security Guard (MSG) Detachment, a friend of Al Ransom, a former Marine who is aboard the missing aircraft, hears of the espionage and the plane crash. Not one to stand by and watch, the NCOIC forms an unofficial search and rescue team which picks up the trail of the missing craft and her survivors. The dangers to all involved: the survivors, the cartel's professional killers, and the Marine Security Detachment rescuers are found in every turn they take. They are all around them in the trees, at ground level, on, under, and above the waterways, swamps, and mangroves. These hazards eat away at their self-confidence and tear at their moral fabric. They are tested continuously, passing one test only to encounter another challenge. If it isn't attacks by giant spiders, anacondas, and crocodiles, it's tigers, flesh-eating worms, and blood-sucking bats. Or it's problems from hostile tribes or from the natural environment like earthquakes and lava flows or from the failure of their sophisticated equipment like the GPS systems, radios, and walkie-talkies. Ratha's Creature Clare Bell, 2011-05-14. Ratha is a young herder of the Named, a clan of intelligent prehistoric wild cats who keep deer and horses. The Named fight for survival against Un-Named cats, enemies who raid clan herds. Meoran, leader of the Named, claims that the Un-Named are no more intelligent than herd animals, and Ratha believes him until a clash with an Un-Named raider who taunts her in Named speech forces her to question everything. Then Ratha tames a power that could upset everything. Threatened by her discovery, the tyrannical clan leader banishes her from the clan. Can a young clan herder who doesn't know hunting use her new creature to survive in exile? *Look Beyond the Fire* Mona K. Oshana, 2007-08. Was life really that bad under the Saddam Hussein regime? *Look Beyond the Fire: Daily Struggles Under Saddam's Regime* is Mona K. Oshana's heart-rending account of the struggle to live and ultimately escape the cruel totalitarian rule of Saddam Hussein. Oshana vividly captures the thoughts and suppressed way of life of the forgotten, misunderstood people of Iraq and how decades of oppression have affected their state of mind. Drawing on her own life experiences, she illustrates the anguish and the suffering of her people.
