Bright Stars American Painting And Sculpture Since 1776:

Bright Stars: American Painting and Sculpture Since 1776 Jean Lipman, 1976 **Bright Stars** Jean Lipman, Helen Margaret Franc, 1976 **Masterworks of American Painting and Sculpture from the Smith College Museum of Art** Smith College. Museum of Art, Linda D. Muehlig, Betsy B. Jones, Kristen Erickson, Linda Merrill, Daniel J. Strong, 1999 This volume presents 79 of The Smith College Museum's most important works in full color scholarly essays about each artist and work and an illustrated checklist of additional examples 117 colour 120 b w illustrations **American Paintings and Sculpture at the Sterling and Francine Clark Art Institute** Margaret C. Conrads, Sterling and Francine Clark Art Institute, 1990 68 treasures of Massachusetts museum Homer Sargent Cassatt Inness Remington in depth *On the Borders of Convention* Aleksandra Nikčević Batrićević, 2010-05-11 The research presented in this book is authored by scholars coming from as distant regions as South Africa the United States of America Great Britain France Italy Belarus the Balkans Needless to say that one of the good things about this international cooperation is that owing to their different socio cultural backgrounds these scholars have contributed to producing an extremely varied picture of ways of approaching the challenge of a changing world The papers on literature and culture collected in this book contribute a further element of rigour into the discussion of numerous and always varying and changing borders of convention in a literary text literary genre and literary theory as well as in general culture and everyday paths of life Starting with oral cultures over the classic literary masters modernist and postmodernist textual and theoretical phenomena the twentieth century flouting of numerous social and gender convention through painting film dance contemporary music as well as graffiti We have sought to stress that what is most noticeable from the evidence of their studies is that scholars today concern these issues through a dynamic global process and beyond any preconceived design or any strict set of theoretical prescriptions which would otherwise lead them to ignore the ever shifting borders in literature and culture as well as in global socio cultural reality in general The variety and complexity of these essays offer fresh views to the problem posed in the title of the book Therefore we trust that they will stimulate intellectual confrontation and circulation of ideas within the field of literature and cultural studies Hawthorne's Visual Artists and the Pursuit of a Transatlantic Aesthetics Kumiko Mukai, 2008 Among Hawthorne's primary themes the visual arts have usually been regarded as an afterthought and have only been examined to elucidate his own personal philosophy Hawthorne's own contemporaries derided him for his mediocre aesthetics and that view has been taken as received wisdom up to the present day This study reexamines Hawthorne's aesthetics and suggests that he was much more familiar with the art and artists of the time than has previously been acknowledged by critics He developed his own eclectic and transatlantic view of art a view which incorporated decorative arts like embroidery while maintaining a modest estimation of his own talents This book examines the full range of visual artists whom Hawthorne portrays It argues that these portrayals illuminate the artist's dilemma of being fettered by New England Puritanism while at the same time being

attracted to the richness and depth of both Victorian aesthetics and the artistic sense of Old World Catholicism The ambiguous destinies of his artist characters include misunderstandings and disputes while at the same time they suggest a reconciliation of the conflicting sentiments and transatlantic perspectives of the writer himself *The Guennol Collection* Ida Ely Rubin, Metropolitan Museum of Art (New York, N.Y.), 1975 A Deaf Artist in Early America Harlan Lane, 2004-09-24 John Brewster Jr 1766 1854 was one of the most prominent early American portrait painters His hauntingly beautiful portraits have a directness and intensity of vision that were rarely equaled as the images in this book attest Brewster's portraits have sold astonishingly well at auction and his work is featured in the collections of prestigious museums yet curiously little has been written about the life of this deaf artist Traveling the New England coast to paint the portraits of the merchant class that arose after the Revolution he lived precisely when a Deaf World with its own language social institutions and culture was forming Harlan Lane award winning historian of the Deaf argues that deaf people are often visually gifted and that Brewster as a deaf artist is part of a long and continuing distinguished tradition Lane's unprecedented biography both vividly and comprehensively explores Brewster's worlds he was a seventh generation descendant of William Brewster who led the Pilgrims on the Mayflower voyage he was a member of the Federalist elite a Deaf man and finally an artist In 1817 at the age of fifty one Brewster attended the first school for the Deaf in America the Connecticut Asylum for the Education and Instruction of Deaf the Deaf communities of Martha's Vineyard Maine and New Hampshire in the nineteenth century and on contemporary Deaf art A Deaf Artist in Early America provides a multifaceted glimpse of Brewster New England history and the distinctive culture language and social institutions of the Deaf in America German Immigrant Artists in America Peter C. Merrill, 1997 In addition to American sources draws from German sources not generally consulted by historians of American art Presents biographical sketches of German and German speaking painters graphic artists engravers lithographers sculptors and some stained glass designers who arrived in North America from the colonial period to the 20th century The bibliographic references are article specific No index Annotation copyrighted by Book News Inc Portland OR *Modern Art* Pam Meecham, Julie Sheldon, 2000 This textbook provides a comprehensive guide to modern and post modern art The authors bring together history theory and the art works themselves to help students understand how and why art has developed during the 20th century
