Chakras Healing Meditation for Beginners + Cognitive Behavioral Therapy + Relaxation and Stress Reduction

Robin McGill,2021-09-14 This book will help you in developing a clear understanding of the concept and importance of chakras the reasons for their blockage and the ways to heal them The concept of chakras has started to attract the attention of people these days as most people feel that it can help them in addressing most of their problems in life The concept of chakras is very deep and wide In the east this concept was developed more than 4000 years ago and since then it is being followed in various forms If you look closely the knowledge of chakras can help you solve a lot of mysteries of your personal life The best thing about chakras is that it just doesn t tell about the problems but also helps you in finding the solutions There are several myths and misconceptions that float around the concept of chakras There is a lack of clarity and most people still consider it to be some form of magic There are people who maintain a distance from the knowledge of chakras as they believe it pertains to a specific religion This book will help you in clearing all such confusions This book is just not an introduction to the concept of chakras but would also explain in detail the ways in which you can benefit from this knowledge We all have these chakras active in our bodies naturally However modern lifestyle stress anxiety repressed emotions chronic pain and general suffering of life can block the chakras and the smooth energy flow in the may get affected It can cause innumerable problems and after reading the book you ll also be able to assess the number of problems that you have been facing due to chakra blockage Our ignorance makes us continue on the same path without any respite Chakra blockage can be rectified and chakras can be healed This means most of the problems caused by the chakras don t need to be a permanent part of our lives They can be removed permanently This book will help you in understanding the ways in which you can make that happen Most people believe that it might be a very difficult task and may need great expertise or skill This book will

explain the simple ways in which the chakra issues can be corrected I assure that you will find the solutions easy and effective I hope that you will find this book useful and would be able to add value through the knowledge in this book There are plenty of books on this subject on the market thanks again for choosing this one Every effort was made to ensure it is full of as much useful information as possible please enjoy it *Stoicism for Stress Relief* Alexander Clarke, **Stress and**
