Bringing Yourself To Work A Guide To Successful Staff Development In After School Programs:

Bringing Yourself to Work Michelle Seligson, Patricia Jahoda Stahl, 2003 This groundbreaking professional development book outlines the support and skills staff need to increase self awareness sustain healthy relationships and improve group dynamics Building on the latest research in emotional intelligence relational theory and group relations this hands on guide includes activities a self assessment tool and advice for dealing with issues commonly faced by staff such as learning how to respond to difficult situations with colleagues children and patients

The Heartbeat of the Youth Development Field Georgia Hall, Jan Gallagher, Elizabeth Starr, 2022-12-01 Youth work is a sacred opportunity to make a significant difference in the lives of children and youth Through research and personal essay narrative The Heartbeat of the Youth Development Field Professional Journeys of Growth Connection and Transformation shines a light on the intricate connections between research and practice touching upon both the vulnerability and triumph of youth development work The passionate voices of youth workers in this volume lead to the inescapable conclusion that programs and policies for youth must be informed by these same voices and the values they express We hope this book shows OST workers researchers funders and policymakers as well as other education professionals how youth workers lived experiences inspire their ability to build the relationships that are the foundation of positive and healthy youth development From relationships comes engagement and from engagement transformation centered in equity inclusion and belonging No one is better able to advocate for these truths than the professionals who found themselves by whatever means working with young people to bring positive change to their lives their communities and our world

ENDORSEMENTS The Heartbeat of the Youth Development Field Professional Journeys of Growth Connection and Transformation is a timely discussion about what we in the Out of School Time and youth development field know already that this work is an integral part of the success survival and thriving of youth This book will be a catalyst for ensuring the professionalization of our field and additional support and resources for out of school time and youth development professionals

Ebony Grace NJSACC The Statewide Network for New Jersey s Afterschool Communities The Heartbeat of the Youth Development Field provides a window into the lives of youth workers and experiences that led to their work with young people It beautifully illustrates the importance of building positive relationships with youth and details the practices and strategies successfully employed by youth workers While this book will be immeasurably valuable to researchers funders and policymakers it is also an important resource for program leaders to promote reflection and discussion among youth worker staff as part of staff development

Sam Piha The How Kids Learn Foundation and Temescal Associates

Advancing Youth Work Dana Fusco, 2012-02-27 This path breaking book brings together an international list of contributors to collectively articulate a vision for the field of youth work sharing what they have learned from decades of experience in the training and education of youth workers Carefully designed evaluation and research studies have legitimized the learning potential of youth programs and non school organizations over the last twenty years and recent

attention has shifted towards the education training and on going professional development of youth workers Contributors define youth work across domains of practice and address the disciplines of knowledge upon which sound practice is based reviewing examples of youth practitioner development both in and outside of academia Raising critical questions and concerns about current trends Advancing Youth Work aims to bring clarity to the field and future of youth work Advancing Youth Work will help youth work practitioners develop a common language articulate their field in one voice and create a shared understanding of similarities and differences This book is also an invaluable resource for higher educators researchers and students involved with youth work Positive Youth Development Through Sport Nicholas L.

Holt,2007-09-12 The first Positive Youth Development title to focus on the role of sport this book brings together high profile contributors from diverse disciplines to critically examine the ways in which sport can be and has been used to promote youth development Young people are too frequently looked upon as problems waiting to be solved From the perspective of Positive Youth Development PYD young people are understood to embody potential awaiting development Involvement with sport provides a developmental context that has been associated with PYD but negative outcomes can also arise from sport participation and school PE Sport itself does not lead to PYD rather it is the manner in which sport is structured and delivered to children that influences their development Positive Youth Development Through Sport fills a void in the literature by bringing together experts from diverse disciplines to critically examine the ways in which sport can be and has been used to promote youth development **After-School Success** Anne Bouie,2007-01-18 In this inspiring book Anne

Bouie details her work with underachieving urban youth and their families at Project Interface a math and science enrichment program where she developed a unique approach to raising achievement Bouie argues that rather than identifying deficits and dysfunctions in the family a more effective method would focus on strengths and build on the inherent resilience of the community She describes the design and implementation of this collaboratively organized community based after school enrichment program that worked Her insights are a valuable tool for any educational or youth program interested in fostering lasting academic success Book Features include Testimonials from youth staff and parents who participated in a successful after school program Indicators for effective and ineffective implementation based on a field tested model Indicators to help motivate and enable students to put forth effort and try in spite of having failed in the past Strategies to engage families and community members Insights for policymakers and practitioners who may wish to start a program or assess an existing one Supervision in Early Childhood Education Joseph J. Caruso,M. Temple

Fawcett,2014-05-23 *Research & Action Report* ,2002 **Youth Leadership in Sport and Physical Education** D. Hellison,T. Martinek,2009-10-26 This book responds to the needs of urban youth by describing youth development principles in physical activity programs These programs are built on urban kids assets and promise rather than their deficits Included are ways of transferring skills from specific programs to everyday settings The University of Chicago Magazine ,2004
