## **Britain And Joseph Chamberlain:**

Britain and Joseph Chamberlain Michael Balfour, 2023 First Published in 1985 Britain and Joseph Chamberlain is not simply the first biography of Joseph Chamberlain to be written from a radical standpoint but also an exercise in counter history What difference might it have made if Ireland had been set on the road to self government in 1886 if the reforms of the 1906 Liberal Government had been enacted before 1890 and if it had fallen to a government of the left to handle the Boers All these possibilities were ruled out when Chamberlain in a fit of personal animosity broke with Gladstone over Home Rule He probably also thereby removed the last chance of the Labour Party growing out of the Liberal Party instead of competing with it for progressive votes and so facilitating the Conservative domination of politics between 1922 1940 Professor Balfour on the other hand does not believe that even if Chamberlain had remained a radical and become Prime Minister he would have been able to arrest Britain's slackening growth This book is an important historical document for scholars of British history *Joseph Chamberlain* I. Cawood, C. Upton, 2016-04-08 Winston Churchill described Joseph Chamberlain as the man who made the weather for twenty years in British politics between the 1880s and the 1900s This volume contains contributions on every aspect of Chamberlain's career including international and cultural perspectives hitherto ignored by his many biographers It breaks his career into three aspects his career as an international statesman defender of British interests and champion of imperial federation his role as a national leader opposing Gladstone's crusade for Irish home rule by forming an alliance with the Conservatives campaigning for social reform and finally advocating a protectionist economic policy to promote British business and the aspect for which he is still celebrated in his adopted city as the provider of sanitation gas lighting clean water and cultural achievement for Birmingham a model of civic regeneration that still inspires modern politicians such as Michael Heseltine Tristram Hunt and David Willetts **Joseph Chamberlain** Peter T. Marsh, 1994-01-01 Biografie van de Engelse politicus 1836 1914 **The Politics of Retirement in Britain, 1878-1948** John Macnicol, 2002-04-18 A very important and thorough analysis of the debate on retirement and state pensions in Britain **Britain's Imperial Century, 1815-1914** Ronald Hyam, 2016-01-06 Provides a comprehensive chronological narrative of the history of the British Empire between 1815 and 1914 together with a more theoretical and reflective concluding chapter thus giving an overview of British policy and action which takes account of the many factors underlying British expansion **Speeches that Changed Britain** Andrew Reekes, 2015-09-19 A fascinating and richly illustrated book exploring speeches made in Birmingham that changed history Meet some of Britain's most famous orators The book reflects the importance of oratory in making a political argument It may in a sound bite era be a dying art but these speeches fulfil the first requirement of successful rhetoric that it be a reasoned argument to persuade its audience It is striking how many nationally significant speeches have been made in Birmingham over the past two hundred years This book looks at ten episodes when a speech in Birmingham challenged the rest of the country to embrace change and reform More

than any other city it represents Britain's provincial voice across the period. The book reflects the importance of oratory in making a political argument. It may in a sound bite era be a dying art but these speeches fulfil the first requirement of successful rhetoric that it be a reasoned argument to persuade its audience. On 27th October 1857 MP John Bright addressed a crowded Birmingham Town Hall. Already a famous politician and orator expectations were high that he would deliver a newsworthy speech. So much so The Times chartered a special night train to deliver his text in time for the morning editions. And Bright didn't disappoint. The speech a passionate call for universal suffrage marked a fundamental turning point in 19th century electoral reform and forms a powerful illustration of the impact a great speech and speaker can have on the history of a nation. *Speeches that Changed Britain: Oratory in Birmingham* takes a number of speeches all made in Birmingham in the last two hundred years and explores their impact on local and national stages. From the charismatic speakers themselves to the words they used the causes they fought for and the mercurial relationship between orator and audience author Andrew Reekes examines the factors that make a great speech. Many of the speakers considered were the most famous orators of their time and their speeches illustrate contemporary concerns from Thomas Attwood advocating Parliamentary reform in 1832 to crowds of 200 000 Feargus O'Connor addressing Chartist rallies the Chamberlain dynasty Joseph and Neville opposing Home Rule and confronting Hitler to controversial characters Oswald Mosley and Enoch Powell outlining their personal visions. The book closes with a very recent speech by David Cameron which continues the tradition of powerful speeches made in the city. Reekes paints a clear picture of Birmingham itself as a stronghold of radical politics and social reform one that generated and attracted famous orators. Their presence has meant that Birmingham has played a profound role in setting the national political mood and agenda. Resonating with the text of these great speeches Reekes' fascinating and important book captures vividly a lost age of political oratory and passionate public advocacy and provides an extraordinary insight into the progress of political and social reform in Britain across the last two hundred years.
