Whitaker's Book List ,1991 A Historical Guide to NGOs in Britain M. Hilton,N. Crowson,J. Mouhot,J. McKay,2012-07-20 Aiming to furnish the reader with the historical data to engage with the debates surrounding the Cameron government s Big Society and civil society this book gives the reader a greater and more informed historical consciousness of how the NGO sector has grown and influenced A Richer Heritage Robert E. Stipe,2003 Surveying the past present and future of historic preservation in America this text features 15 essays by some of the most eminent voices in the field essays which highlight the principle ideas and events that have shaped and continue to shape the movement *Interpreting Archaeology* Alexandra Alexandri,Victor Buchli,John Carman,Ian Hodder,Jonathan Last,Gavin Lucas,Michael Shanks,2013-11-19 This volume provides a forum for debate between varied approaches to the past The authors drawn from Europe North America Asia and Australasia represent many different strands of archaeology They address the philosophical issues involved in interpretation and a desire among archaeologists to come to terms with their own subjective approaches to the material they study a recognition of how past researchers have also imposed their own value systems on the evidence which they presented The National Parks and Other Wild Places of Britain and Ireland Jonathan Elphick,David Tipling,2002 This book covers the national parks and other wild places in Britain and Ireland **Ancient Monuments in the Countryside** Timothy Darvill,2014-02-15 Much of England s rich archaeological heritage lies in the countryside Many monuments such as barrows hillforts and Roman villas are familiar features fo the landscape while other sites lie buried or only partly visible These remains are the result of the impact on the landscape of the countless generations of people who have lived worked and died within it The cumulative effect is the landscape we know today in which the historical dimension is an integral component of the valued whole and an important part of what most people in England are increasingly concerned to see protected and conserved The archaeological heritage however is a finite and fragile resource and much of it has been lost in the last two decades as a result of increasing pressures on farming industry and commerce to maximise the return on investment in the land The conservation of what remains therefore needs to be given urgent consideration This report has three main goals First it aims to present the background to the recognition investigation and management of the archaeological resource Second it attempts to review what is known of the resource the threats currently posed to it and the ways in which it can be exploited and conserved Finally it looks towards the development and promotion of a secure future for ancient monuments in the countryside *British Wildlife* ,1989 The Past in Contemporary Society: Then, Now Peter Fowler,2002-09-11 Changes or innovations which threaten our heritage arouse great hostility in those who want to preserve the past in its entirety The heritage has become a commodity a device to sell everything from biscuits to country houses Fowler skilfully examines the present relationship between the past and the present analysing the manner in which we mould and interpret the past to fit our current needs He assesses the influence of our heritage in the last decade of the 20th century

and with a wide range of examples judges the consequences of the increasing pressures of the heritage industry As well as a diagnosis of where the past is being misused he provides prescriptions for responsible development and a thoughtful interpretation of a common past As well as addressing the needs of the professional involved in the heritage industry he also considers the consumer all those who visit museums enjoy a historic site or an art exhibition or who simply dislike the hijacking of our common heritage by commercial or vested interests
