British Columbia Visions Of The Promised Land:

British Columbia, Visions of the Promised Land Brenda Lea White, 1986 **The West Beyond the West** Jean Barman, 1996-01-01 Critically acclaimed since its publication in 1991 the BC history of choice has now been revised Here is the story of Canada's westernmost province beginning at the point of contact between Native peoples and Europeans and continuing up to 1995 Jean Barman tells the story by focusing not only on the history made by leaders in government but also by including the roles of women immigrants and Native peoples She interweaves political social economic and demographic events into an absorbing account that reveals the roots of contemporary British Columbia in all its diversity and apparent contradictions The revised edition has been updated to include information from the 1991 census and revisions have been made throughout the book including the references to update it to 1995 **Nature's Northwest** William G. Robbins, Katrine Barber, 2011-04-15 At the beginning of the twentieth century the greater Northwest was ablaze with change and seemingly obsessed with progress The promotional literature of the time praising railroads population increases and the growing sophistication of urban living however ignored the reality of poverty and ethnic and gender discrimination During the course of the next century even with dramatic changes in the region one constant remained inequality With an emphasis on the region's political economy its environmental history and its cultural and social heritage this lively and colorful history of the Pacific Northwest defined here as Oregon Washington Idaho Montana and southern British Columbia places the narrative of this dynamic region within a national and international context Embracing both Canadian and American stories in looking at the larger region renowned historians William Robbins and Katrine Barber offer us a fascinating regional history through the lens of both the environment and society Understanding the physical landscape of the greater Pacific Northwest and the watersheds of the Columbia Fraser Snake and Klamath rivers sets the stage for understanding the development of the area Examining how this landscape spawned sawmills fish canneries railroads logging camps agriculture and shared immigrant and ethnic traditions reveals an intricate portrait of the twentieth century Northwest Impressive in its synthesis of myriad historical facts this first rate regional history will be of interest to historians studying the region from a variety of perspectives and an informative read for anyone fascinated by the story of a landscape rich in diversity natural resources and Native culture **Economies of Representation, 1790?2000** Leigh Dale, 2017-11-30 Although postcolonialism has emerged as one of the most significant theoretical movements in literary and cultural studies it has paid scant attention to the importance of trade and trade relations to debates about culture Focusing on the past two centuries this volume investigates the links among trade colonialism and forms of representation posing the question What is the historical or modern relationship between economic inequality and imperial patterns of representation and reading Rather than dealing exclusively with a particular industry or type of industry the contributors take up the issue of how various economies have been represented in Aboriginal art in literature by North American Caribbean Portuguese South African First Nations

Australian British and Aboriginal authors and in a diverse range of writings that includes travel diaries missionary texts the findings of the Leprosy Investigation Commission early medical accounts and media representations of HIV AIDS Examining trade in commodities as various as illicit drugs liquor bananas tourism adventure fiction and modern Aboriginal art as well as cultural exchanges in politics medicine and literature the essays reflect the widespread origins of the contributors themselves who are based throughout the English speaking world Taken as a whole this book contests the commonplace view promoted by some modern economists that trade in and of itself has a leveling effect equalising cultures places and peoples demonstrating instead the ways in which commerce has created and exacerbated differences in power

Problems of Colonization and the Science of Publicity in Empire Building Ernest Heaton, 1912

Economies of Representation, 1790-2000 Leigh Dale, 2017-11-30 Although postcolonialism has emerged as one of the most significant theoretical movements in literary and cultural studies it has paid scant attention to the importance of trade and trade relations to debates about culture Focusing on the past two centuries this volume investigates the links among trade colonialism and forms of representation posing the question What is the historical or modern relationship between economic inequality and imperial patterns of representation and reading Rather than dealing exclusively with a particular industry or type of industry the contributors take up the issue of how various economies have been represented in Aboriginal art in literature by North American Caribbean Portuguese South African First Nations Australian British and Aboriginal authors and in a diverse range of writings that includes travel diaries missionary texts the findings of the Leprosy Investigation Commission early medical accounts and media representations of HIV AIDS Examining trade in commodities as various as illicit drugs liquor bananas tourism adventure fiction and modern Aboriginal art as well as cultural exchanges in politics medicine and literature the essays reflect the widespread origins of the contributors themselves who are based throughout the English speaking world Taken as a whole this book contests the commonplace view promoted by some modern economists that trade in and of itself has a leveling effect equalising cultures places and peoples demonstrating instead the ways in which commerce has created and exacerbated differences in power

A Narrow Vision Brian Titley, 2011-11-01 A well known member of the circle of Confederation poets Duncan Campbell Scott is generally considered a kind hearted and sympathetic portrayer of the nobility of the Canadian Indian But his real belief about the conditions and future of Canada's Native people is revealed in his official writings during his long tenure as Deputy Superintendent General of Indian Affairs In *A Narrow Vision* Brian Titley chronicles Scott's career in the Department of Indian Affairs and evaluates developments in Native health education and welfare between 1880 and 1932 He shows how Scott's response to challenges such as the making of treaties in northern Ontario land claims in British Columbia and the status of the Six Nations caused persistent difficulties and made Scott's term of office a turbulent one Scott could never accept that Natives had legitimate grievances and held adamantly to the view that his department knew best Not designed as a biography of Scott nor intended to cast a shadow on his motives this book

assesses Euro Canadian thinking on aboriginal rights at the turn of the century Because Scott was chief adviser to his changing political masters as well as framer of official government documents he held a pre eminent position as arbiter of Native needs and claims The only study of Native policy in the early twentieth century and the only work to focus on D C Scott s career in government this book makes an important contribution to our understanding of the development of Canadian Native policy in this century **CM** ,1987 **The Lieutenant Governors of British Columbia** ,2019-05-18 The office of lieutenant governor has been a constant in British Columbia from the province s colonial beginnings to the modern era Originally tasked with selecting the province s premier giving royal assent to provincial legislation and invested with the power to dismiss governments the role of the Crown s representative has continually evolved to meet the needs of society Today the office s constitutional powers largely focus on community functions but the role of lieutenant governor is more than ceremonial This was demonstrated after the 2017 provincial election when then Lieutenant Governor Judith Guichon accepted Premier Christy Clark s resignation and asked NDP leader John Horgan to attempt to form government rather than call a new election BC s early lieutenant governors were the force behind infrastructure initiatives such as building roads railways and ships and investing in electric utilities and the forest industry Although most came from the ranks of the British elite and often espoused policies that denied First Nations land rights and opposed the immigration of Chinese and Japanese people over time the office became more representative of the province s diverse population In recent years lieutenant governors have played an increasingly activist role celebrating cultural excellence and promoting literacy creativity environmental awareness Chinese Canadian David Lam 1988-95 had a mandate of intercultural understanding Iona Campagnolo 2001-7 the first woman to hold the position in BC focused on empowering youth and women and fostering a spirit of public inclusiveness at Government House Steven Point 2007-12 BC s first Indigenous lieutenant governor worked to establish libraries in First Nations communities Chronologically arranged and rich with photographs this work by historian Jenny Clayton paints a vivid picture of the lives of BC s thirty lieutenant governors Clayton s biographical essays capture the distinct personalities and events that have characterized the office from 1871 to the present offering a unique perspective on the evolution of the province **B C Studies** ,1987
