Historian's Guide to Early British Maps Helen Wallis, Anita McConnell, 1995-04-06 Great Britain and Ireland enjoy a rich cartographic heritage yet historians have not made full use of early maps in their writings and research This is partly due to a lack of information about exactly which maps are available With the publication of this volume from the Royal Historical Society we now have a comprehensive guide to the early maps of Great Britain The book is divided into two parts part one describes the history and purpose of maps in a series of short essays on the early mapping of the British Isles part two comprises a guide to the collections national and regional Now available from Cambridge University Press this volume provides an essential reference tool for anyone requiring to access maps of the British Isles dating back to the medieval period and beyond *Old Maps & Map Makers of Scotland* John Elliot Shearer, 1905 **Maps in Tudor England** P. well as post 17th century authors Globe's introduction to Stent's work is concerned with the social political and economic conditions leading to the emergence of a popular printseller who catered to a different clientele from that usually studied by art historians Stent's career illustrates the mid 17th century commercial revolution which saw the artisan's customers change from the wealthy leisure class to the worker who wanted mass produced cheap goods Drawing on material in a hundred libraries and museums around the world the catalogue describes over fifteen hundred engravings including 319 sheets and five books of portraits 42 maps 102 miscellaneous prints and sets with religious classical heraldic and satirical subjects and 86 books on handwriting politics military training natural history figure sketches costume architecture and ornament Richly illustrated with 319 plates Peter Stent will prove valuable not only to print dealers art historians museums and libraries but also to social cultural and political historians
