Battle Of Hastings Sources And Interpretations:

Battle of Hastings Stephen Morillo, 1996 **The Battle of Hastings** Stephen Morillo, 1996 Primary sources document the major stages of one of the most significant battles in European history **Historical Geography, GIScience and Textual Analysis** Charles Travis, Francis Ludlow, Ferenc Gyuris, 2020-02-29 This book illustrates how literature history and geographical analysis complement and enrich each other's disciplinary endeavors The Hun Lenox Globe constructed in 1510 contains the Latin phrase Hic sunt dracones Here be dragons warning sailors of the dangers of drifting into uncharted waters Nearly half a millennium earlier the practice of earth writing geographia emerged from the cloisters of the great library of Alexandria as a discipline blending the twin pursuits of Strabo's poetic impression of places and Herodotus' chronicles of events and cultures Eratosthenes a librarian at Alexandria and the mathematician Ptolemy employed geometry as another language with which to pursue earth writing From this ancient East Mediterranean fount the streams of literary perception historical record and geographical analysis phenomenological and Euclidean found confluence The aim of this collection is to recover such means and seek the fount of such rich waters by exploring relations between historical geography geographic information science GIS geoscience and textual analysis The book discusses and illustrates current case studies trends and discourses in European American and Asian spheres where historical geography is practiced in concert with human and physical applications of GIS and the broader geosciences and the analysis of text broadly conceived as archival literary historical cultural climatic scientific digital cinematic and media Time as a multi-scaled concept again broadly conceived is the pivot around which the interdisciplinary contributions to this volume revolve In *The Landscape of Time* 2002 the historian John Lewis Gaddis posits What if we were to think of history as a kind of mapping He links the ancient practice of mapmaking with the three-part conception of time past present and future Gaddis presents the practices of cartography and historical narrative as attempts to manage infinitely complex subjects by imposing abstract grids to frame the phenomena being examined longitude and latitude to frame landscapes and occidental and oriental temporal scales to frame timescapes Gaddis contends that if the past is a landscape and history is the way we represent it then it follows that pattern recognition constitutes a primary form of human perception one that can be parsed empirically statistically and phenomenologically In turn this volume reasons that literary historical cartographical scientific mathematical and counterfactual narratives create their own spatio-temporal frames of reference Confluences between the poetic and the positivistic the empirical and the impressionistic the epic and the episodic and the chronologic and the chorologic can be identified and studied by integrating practices in historical geography GIScience geoscience and textual analysis As a result new perceptions and insights facilitating further avenues of scholarship into uncharted waters emerge The various ways in which geographical historical and textual perspectives are hermeneutically woven together in this volume illuminates the different methods with which to explore *terrae incognitae* of knowledge beyond the shores of their own separate disciplinary islands *Battleground*

Sussex John Grehan,2012-03-19 From its south eastern tip Sussex is little more than sixty miles from continental Europe and the county's coastline some seventy six miles long occupies a large part of Britain's southern frontier Before the days of Macadam and the Turnpike water travel could prove more certain than land transportation and the seas that define the borders of our nation aided rather than deterred the invader Though the last successful invasion of Britain took place almost 1 000 years ago the gently shelving beaches of Sussex have tempted the prospective invader with the promise of both an easy disembarkation and a short and direct route to London the last time being just seven decades ago As the authors demonstrate the repeated threat of invasion from the Continent has shaped the very landscape of the county The rounded tops of the Iron Age hill forts the sheer walls of the medieval castles the squat stumps of Martello towers the moulded Vaubanesque contours of the Palmerstone redoubts and the crouched concrete blocks and bricks of the Second World War pillboxes constitute the visible evidence of Sussex's position on Britain's front line **Adam of Bremen's Gesta**

Hammaburgensis Ecclesiae Pontificum Grzegorz Bartusik,Radosław Biskup,Jakub Morawiec,2022-07-29 Adam of Bremen's Gesta Hammaburgensis Ecclesiae Pontificum is one of the most important accounts documenting the history geography and ethnology of Northern and Central Eastern Europe in the period between the ninth and eleventh centuries Its author a canon of the archdiocese of Hamburg Bremen remains an almost anonymous figure but his text is an essential source for the study of the early medieval Baltic However despite its undisputed status past scholarship has tended to treat Adam of Bremen's account as on the one hand an historically accurate document but on the other a literary artefact containing few if any reliable historical facts The studies collected in this volume investigate the origins and context of the Gesta and will enable researchers to better understand and evaluate the historical veracity of the text **Moment of Battle** James

Lacey,Williamson Murray,2013-05-21 Two modern masters of military history make their case for the twenty most pivotal battles of all time in a riveting trip through the ages to those moments when the fate of the world hung in the balance In the grand tradition of Edward Creasy's classic Fifteen Decisive Battles of the World James Lacey and Williamson Murray spotlight only those engagements that changed the course of civilization In gripping narrative accounts they bring these conflicts and eras to vivid life detailing the cultural imperatives that led inexorably to the battlefield the experiences of the common soldiers who fought and died and the legendary commanders and statesmen who matched wits will and nerve for the highest possible stakes From the great clashes of antiquity to the high tech wars of the twenty first century here are the stories of the twenty most consequential battles ever fought including Marathon where Greece's greatest generation repelled Persian forces three times their numbers and saved Western civilization in its infancy Adrianople the death blow to a disintegrating Roman Empire Trafalgar the epic naval victory that cemented a century of British supremacy over the globe Saratoga the first truly American victory won by united colonial militias which ensured the ultimate triumph of the Revolution Midway the ferocious World War II sea battle that broke the back of the Japanese navy Dien Bien Phu the

climactic confrontation between French imperial troops and Viet Minh rebels that led to American intervention in Vietnam and marked the rise of a new era of insurgent warfare Operation Peach the perilous 2003 mission to secure a vital bridge over the Euphrates River that would open the way to Baghdad Historians and armchair generals will argue forever about which battles have had the most direct impact on history But there can be no doubt that these twenty are among those that set mankind on new trajectories Each of these epochal campaigns is examined in its full historical strategic and tactical context complete with edge of your seat you are there battle re creations With an eye for the small detail as well as the bigger picture Lacey and Murray identify the elements that bind these battles together the key decisions critical mistakes and moments of crisis on which the fates of entire civilizations depended Some battles merely leave a field littered with the bodies of the fallen Others transform the map of the entire world Moment of Battle is history written with the immediacy of today s news a magisterial tour d horizon that refreshes our understanding of those essential turning points where the future was decided A MAIN SELECTION OF THE HISTORY BOOK CLUB AND THE MILITARY BOOK CLUB Two world class historians present eloquently and persuasively twenty battles that fundamentally changed the course of history Moment of Battle is a must acquisition for anyone seeking to understand the nature of human development and its turning points Dennis E Showalter professor of history Colorado College author of Armor and Blood In a single volume James Lacey and Williamson Murray have distilled a lifetime of learning and insight into the most influential battles in world history This is a readable and compelling primer and a feast for the student of military history James D Hornfischer author of Neptune s Inferno The U S Navy at Guadalcanal **Warhorse** Phil Sidnell, 2007-10-10 Cavalry were an important part of almost every ancient army yet modern writers have neglected them in favour of the infantry of the Greek phalanx and the Roman legions Warhorse seeks to correct this injustice Phil Sidnell challenges the common view that ancient cavalry were useful for scouting and raiding but left the real fighting to the foot soldiers In fact he argues they were often used in a shock role and proved decisive on many occasions The famous victories of great generals such as Alexander Hannibal and Julius Caesar could not have been won without a full appreciation of the battle winning potential of the cavalry Drawing heavily on the ancient sources Warhorse takes the reader on a thrilling ride through numerous vividly recreated battles from the earliest civilizations to the Battle of Hastings to reveal the horsemen of the ancient world in their full and deadly glory A wonderful book written in a very clear and quick paced writing style It should become a classic PETER G TSOURAS US defence intelligence analyst and author and editor of many books including Alexander The Invincible King of Macedonia Sidnell has produced a highly readable study of the combat role of cavalry in the ancient world argues his point in an imaginative thorough fashion this book will appeal to a wide range of readers CHOICE June 2007 *The Medieval Crossbow* Stuart Ellis-Gorman, 2022-07-20 An in depth illustrated history and technical study of this iconic weapon of the Middle Ages The crossbow is an iconic weapon of the Middle Ages and alongside the longbow one of the most effective ranged weapons of the pre gunpowder era Unfortunately despite its

general fame it has been decades since an in depth history of the medieval crossbow has been published which is why Stuart Ellis Gorman's detailed accessible and highly illustrated study is so valuable *The Medieval Crossbow* approaches the history of the crossbow from two directions The first is a technical study of the design and construction of the medieval crossbow the many different kinds of crossbows used during the Middle Ages and finally a consideration of the relationship between crossbows and art The second half of the book explores the history of the crossbow from its origins in ancient China to its decline in sixteenth century Europe Along the way it explores the challenges in deciphering the crossbow's early medieval history as well as its prominence in warfare and sport shooting in the High and Later Middle Ages This fascinating book brings together the work of a wide range of accomplished crossbow scholars and incorporates the author's own original research to create an account of the medieval crossbow that will appeal to anyone looking to gain an insight into one of the most important weapons of the Middle Ages

The Bayeux Tapestry and Its Contexts Elizabeth Carson Pastan, Stephen D. White, Kate Gilbert, 2014 A full and provocative reappraisal of the Bayeux Tapestry its origins design and patronage Aspects of the Bayeux Tapestry in fact an embroidered hanging have always remained mysterious despite much scholarly investigation not least its design and patron Here in the first full length interdisciplinary approach to the subject the authors an art historian and a historian consider these and other issues Rejecting the prevalent view that it was commissioned by Odo the bishop of Bayeux and half brother of William the Conqueror or by some other comparable patron they bring new evidence to bear on the question of its relationship to the abbey of St Augustine's Canterbury From the study of art historical archeological literary historical and documentary materials they conclude that the monks of St Augustine's designed the hanging for display in their abbey church to tell their own story of how England was invaded and conquered in 1066 Elizabeth Carson Pastan is a Professor of Art History at Emory University Stephen D White is Asa G Candler Professor of Medieval History emeritus Emory University and an Honorary Professor of Mediaeval History at the University of St Andrews
