

Physician-Assisted Suicide:

What is it, and is it worth fighting over?

definition

"Physician-assisted suicide (PAS) is a process whereby patients with **terminal diseases**, who are deemed to have **less than six months to live**, can make legal requests of **physicians to help them end their lives**." It's usually done with a lethal overdose of barbiturates prescribed by a doctor.

vs. euthanasia

PAS is very similar to euthanasia, with **one important distinction**. In **euthanasia**, the life-ending medication is **administered by someone other than the dying person**, such as the doctor himself. With PAS, the doctor only prescribes the medication, and the patient ingests the medication themselves.²

(You might also hear it called "physician-assisted death" or "medical aid in dying.")
