Beachheads in Space August William Derleth,1954 **The Rise of the Commercial Space Industry** Brian C. Odom,2024-09-13 This collection explores the evolution of the commercial space industry from the beginning of the space age through the early twenty first century Today the space industry is taking on an increased leadership and innovation role in both space access and exploration The growth of commercial space over the past decades offers a potential new paradigm for space exploration one in which industry transitions from supplier to partner However many questions remain This book seeks to bring to light these questions which span from the most seemingly consequential how will humanity explore the Moon and Mars to the most basic what is commercial space To further develop the historical context of commercial space and thereby better inform decision making at NASA in the future this volume examines a broad range of questions related to the history of commercial space operations including but not limited to how has the concept of commercial space evolved in different fields and disciplines What have been the major events and milestones in the emergence and evolution of commercial space activities in the USA and internationally How has the US Government assisted or impeded the emergence and evolution of commercial space activities Providing contributions from a range of different disciplines and backgrounds the authors of this volume offer valuable insights for scholars researching the history of space and space policy as well as decision makers working at NASA or within the wider space industry The International Politics of Space Michael Sheehan,2007-10-31 The year 2007 saw the fiftieth anniversary of the Space Age which began with the launching of Sputnik by the Soviet Union in October 1957 Space is crucial to the politics of the postmodern world It has seen competition and cooperation in the past fifty years and is in danger of becoming a battlefield in the next fifty The International Po The Cosmos Economy Jack Gregg,2021-05-17 If man s next big step is to live and work in space then what will everyone do out there that is so different from what we are now doing here on Earth As the future of space comes into focus it is clear that profit and power are the core elements of the new space economy This entertaining and informative book looks at human settlement in space as a mainstream business opportunity for investors entrepreneurs and far sighted individuals seeking to secure their place in the innovative commercial space sector Dr Jack Gregg presents a unique 5 phase development roadmap that shows how space will grow from a frontier economy to a mature integrated market Written in simple non technical language this book answers such questions as What is the new industrial space economy What are the challenges and roadblocks on the way to a robust space economy How will the rapid growth of the new space economy impact commerce back on Earth How can one best invest in profitable space related enterprises The Cosmos Economy is for readers who hope to be better equipped and more informed about the new space economy and Investors entrepreneurs and futurists who wants

to learn how to take part in the business opportunities of the new high frontier of commercial space Transatlantic Space Politics Sheng-Chih Wang, 2013-05-29 This book examines transatlantic politics through an analysis of 60 years of US European strategic interaction in space The significance of space politics for the study of transatlantic relations receives surprisingly little scholarly attention As a theatre of interaction transatlantic space politics reflects the vicissitudes of European and US power in the international system An understanding of space politics is therefore vital in understanding the status and prospect of the transatlantic order Using established IR theories the author investigates transatlantic space politics and proposes a theoretical explanation which is distinct from the conventional wisdom of the transatlantic security community More specifically he distinguishes between the constitutive and regulatory effects of the transatlantic security community an approach rarely employed in other research in the field Overall this book suggests not only that the transatlantic institutional pillar requires repair but also that the ideational factors need to be revitalised in order to consolidate the transatlantic alliance This book will be of much interest to students of space power transatlantic politics strategic studies foreign policy and IR security studies in general **Air University Review** ,1984-11 Air university review, 1976 ,1976
