**Big Law** Ron Liebman, 2017 As a young partner at Dunn Sullivan one of New York's most prestigious law firms Carney Blake has represented dozens of high profile clients But being a pawn of Big Law often means defending the corporate dirt bags of the world the spillers the drillers and the killers Morality aside Carney is starting to make a name for himself So when Carney is suddenly asked by his firm's chairman to represent the plaintiffs in a class action lawsuit and not as usual the corporate bad guys he warily accepts Maybe they're turning a corner he thinks **BigLaw** Mitt Regan, Lisa H. Rohrer, 2021-01-12 The Great Recession intensified large law firms' emphasis on financial performance leading to claims that lawyers in these firms were now guided by business rather than professional values Based on interviews with more than 250 partners in large firms Mitt Regan and Lisa H Rohrer suggest that the reality is much more complex It is true that large firm hiring promotion compensation and termination policies are more influenced by business considerations than ever before and that firms actively recruit profitable partners from other firms to replace those they regard as unproductive At the same time law firm partners continue to seek the non financial rewards of being members of a distinct profession and are sensitive to whether their firms are committed to providing them Regan and Rohrer argue that modern firms responding effectively to business demands while credibly affirming the importance of non financial professional values can create strong cultures that enhance their ability to weather the storms of the modern legal market **Big Law in Latin America and Spain** Manuel Gómez, Rogelio Pérez-Perdomo, 2017-11-22 This book part of the Stanford Law School research project on the future of the legal profession thoroughly examines the future of big law defined as the large and mid size multiservice highly specialized law firms that provide sophisticated complex and generally costly legal work to multinationals large and mid size domestic corporations and other business clients By systematically gathering assessing and analyzing the best available quantitative and qualitative data on the first tier of the corporate legal services market of Latin America and Spain and interviewing a broadly representative sample of corporate legal officers law firm partners and other stakeholders in each of the countries covered this book provides a nuanced perspective on changes in big law during the last two decades until the present It also explores the factors that are driving these changes and the implications for the future of legal profession legal education and its relationship with the corporate sector and society in general **How to Get Into the Top Law Schools, 4th edition** Richard Montauk, 2008-08-05 Richard Montauk a savvy admissions insider demystifies the application process and provides the tools to ace every step Based on interviews with dozens of admissions officers Montauk delivers a candid view of what leading law schools look for in an applicant He also gives applicants solid advice on developing marketing strategies writing winning essays maximizing financial aid and assessing and upgrading credentials to better match that ideal profile **Vault Guide to the Top Law Firms for Real Estate Law** Nicole S. **Lawyers in 21st-Century Societies** Richard L Abel, Hilary Sommerlad, Ole Hammerslev, Ulrike Schultz, 2022-05-05 This book presents an invaluable collection of essays by eminent scholars from a wide variety of disciplines on the main issues currently confronting legal professions across the world. It does this through a comparative analysis of the data provided by the reports on 46 countries in its companion volume *Lawyers in 21st Century Societies Vol 1 National Reports* Hart 2020. Together these volumes build on the seminal collection *Lawyers in Society* Abel and Lewis 1988a 1988b 1989. The period since 1988 has seen an acceleration and intensification of the global socio economic cultural and political developments that in the 1980s were challenging traditional professional forms. Together with the striking transformation of the world order as a result of the fall of the Soviet bloc, neo liberalism, globalisation, the financialisation of capitalism, technological innovations and the changing demography of lawyers, these developments underscored the need for a new comparative exploration of the legal professional field. This volume deepens the insights in volume 1 with chapters on legal professions in Africa, Latin America, the Islamic world, emerging economies and former communist regimes. It also addresses theoretical questions including the sociology of lawyers and other professions, medicine, accountancy, state production, the rule of law, regional bodies, large law firms, access to justice, technology, casualisation, cause lawyering, diversity, gender, race and masculinity, corruption, ethics, regulation and legal education. Together with volume 1 it will inform and challenge conceptions of the contemporary profession and stimulate and support further research.
