Wanderwords Maria Lauret,2014-09-25 Post poststructuralism and psychoanalysis and in an era of global migration in which English is the lingua franca but not necessarily the lingua aesthetica for migrants readers and critics are more aware than ever that words and meanings wander that writers cannot be taken at their word and that the borders between literary forms fiction poetry life writing essays often do not hold What happens then with writers who work in English but have more than one language at their disposal Do their words wander from one language one life one self one literary form to another do the psychic and cultural worlds of their languages split apart or merge Does their English betray the presence of another language is that other language erased or does it appear here and there on special occasions with special meanings What in different forms of literature is the aesthetic effect of such wandering splitting or merging How do writers negotiate their representation of a multilingual world for a monolingual audience *Wanderwords* brings together literary and cultural theory with areas of research that have a bearing on but do not directly address the problems of representation that creative writers face when the dilemma of what language to write in and consequently what audience to write for presents itself The result is of necessity interdisciplinary and involves socio and psycholinguistics as well as psychoanalysis and neuroscience history and theory of migration and ethnicity and of course literary and cultural theory specifically of life writing

Canada & Its Americas Winfried Siemerling, Sarah Phillips Casteel, 2010-01-15 The chapters in this volume a groundbreaking work in the burgeoning field of hemispheric American studies expand the horizons of Canadian and Québécois literatures suggest alternative approaches to models centred on the

United States and analyze the risks and benefits of hemispheric approaches to Canada and Quebec Revealing the connections among a broad range of Canadian Québécois American Caribbean Latin American and diasporic literatures the contributors critique the neglect of Canadian works in Hemispheric studies and show how such writing can be successfully integrated into an emerging area of literary inquiry An important development in understanding the diversity of literatures throughout the western hemisphere Canada and Its Americas reveals exciting new ways for thinking about transnationalism regionalism border cultures and the literatures they produce Literature in Late Monolingualism David Gramling, 2024-11-14 Monolingualism is bad literature is good right For many of us monolingualism is associated with closed mindedness political nationalism and a general hostility to diverse knowledges and experiences of the world In contrast literature continues to stand allegedly unbehelven as a symbolic beacon for expansive human expression and insight making meaning astride Earth's thousands of human languages But what if this division of virtue and vice isn't quite right leading us to overlook the uninterrupted historical and aesthetic collusion between political monolingualism and literary novels today What if novels made in a European mold tend to be much more indebted to monolingual structures ideologies and styles than their publishers and even their critics care to acknowledge Instead of whistling past such a discomfort Literature in Late Monolingualism recognizes it squarely detailing the important ways in which many authors of contemporary novels do so too As it turns out these authors and their novels tend to be far less skittish than their marketers are about the vast implications of monolingualism in literature literary critique and civic life Rather than rebuking monolingualism as a social vice or a personal shortcoming authors from China Miéville to Dorthe Nors to Karin Tidbeck to Neal Stephenson investigate it dauntlessly aiming to show us in vivid terms how monolingualism is still often calling the shots in our globalized aesthetic and political cultures today
