Re-imagining Communication in Africa and the Caribbean Hopeton S. Dunn,Dumisani Moyo,William O. Lesitaokana,Shanade Bianca Barnabas,2021-01-30 This book advances alternative approaches to understanding media culture and technology in two vibrant regions of the Global South Bringing together scholars from Africa and the Caribbean it traverses the domains of communication theory digital technology strategy media practice reforms and corporate and cultural renewal The first section tackles research and technology with new conceptual thinking from the South The book then looks at emerging approaches to community digital networks online diaspora entertainment and video gaming strategies The volume then explores reforms in policy and professional practice including in broadcast television online newspapers media philanthropy and business news reporting Its final section examines the role of village based folk media the power of popular music in political opposition and new approaches to overcoming neo colonial propaganda and external corporate hegemony This book therefore engages critically with the central issues of how we communicate produce entertain and build communities in 21st century Africa and the Caribbean *New Literary Hybrids in the Age of Multimedia Expression* Marcel Cornis-Pope,2014-11-15 Begun in 2010 as part of the Histories of Literatures in European Languages series sponsored by the International Comparative Literature Association the current project on New Literary Hybrids in the Age of Multimedia Expression recognizes the global shift toward the visual and the virtual in all areas of textuality the printed verbal text is increasingly joined with the visual often electronic text This shift has opened up new domains of human

achievement in art and culture The international roster of 24 contributors to this volume pursue a broad range of issues under four sets of questions that allow a larger conversation to emerge both inside the volume's sections and between them The four sections cover 1 Multimedia Productions in Theoretical and Historical Perspective 2 Regional and Intercultural Projects 3 Forms and Genres and 4 Readers and Rewriters in Multimedia Environments The essays included in this volume are examples of the kinds of projects and inquiries that have become possible at the interface between literature and other media new and old They emphasize the extent to which hypertextual multimedia and virtual reality technologies have enhanced the sociality of reading and writing enabling more people to interact than ever before At the same time however they warn that as long as these technologies are used to reinforce old habits of reading writing they will deliver modest results One of the major tasks pursued by the contributors to this volume is to integrate literature in the global informational environment where it can function as an imaginative partner teaching its interpretive competencies to other components of the cultural landscape

Quality in Teacher Education and Professional Development John Chi-Kin Lee, Timo Ehmke, 2021-09-28 This book addresses the past and changing contexts of Chinese and German teacher education under the impact of globalization and echoes quality issues of teacher education This edited book provides a comprehensive discussion on other issues in the management and implementation of change in teacher education related to teacher education curricula for professional development of teachers A combination of chapters provides an overview a review of literature and research as well as offering examples of teacher education practice and updated empirical research on these topics co edited by two senior scholars and written by experts from Mainland China including Hong Kong and Germany The volume addresses key issues on teacher standards ICT in education and e learning in teacher education STEM education vocational teacher education university school partnership in teacher education and teaching Chinese or German as a second language This is an up to date academic book to look at profound issues related to quality in teacher education and teachers professional development in mainland China and Germany It will be a useful reference for graduate students and researchers in the field of international and comparative education teacher education and curriculum studies teacher educators and practitioners to learn from trends best practice and challenges that have been encountered in Mainland China and Germany

Professional Practice in Engineering and Computing Riadh Habash, 2019-03-18 This book has been developed with an intellectual framework to focus on the challenges and specific qualities applicable to graduates on the threshold of their careers Young professionals have to establish their competence in complying with multifaceted sets of ethical environmental social and technological parameters This competence has a vital impact on the curricula of higher education programs because professional bodies today rely on accredited degrees as the main route for membership Consequently this four part book makes a suitable resource for a two semester undergraduate course in professional practice and career development in universities and colleges With its comprehensive coverage of a large variety of topics each part of the book can be used as a

reference for other related courses where sustainability leadership systems thinking and professional practice are evident and increasingly visible Features Identifies the values that are unique to the engineering and computing professions and promotes a general understanding of what it means to be a member of a profession Explains how ethical and legal considerations play a role in engineering practice Discusses the importance of professional communication and reflective practice to a range of audiences Presents the practices of leadership innovation entrepreneurship safety and sustainability in engineering design Analyzes and discusses the contemporary practices of project management artificial intelligence and professional career development
