Metropolitan Museum Studies in Art, Science, and Technology; V1, 2010 **Making The Met, 1870-2020** Andrea Bayer, Laura D. Corey, 2020-03-23 Published to celebrate The Metropolitan Museum of Art's 150th anniversary *Making The Met 1870-2020* examines the institution's evolution from an idea that art can inspire anyone who has access to it to one of the most beloved global collections in the world. Focusing on key transformational moments, this richly illustrated book provides insight into the visionary figures and events that led The Met in new directions. Among the many topics explored are the impact of momentous acquisitions, the central importance of education and accessibility, the collaboration that resulted from international excavations, the Museum's role in preserving cultural heritage and its interaction with contemporary art and artists. Complementing this fascinating history are more than two hundred works that changed the very way we look at art as well as rarely seen archival and behind-the-scenes images. In the final chapter, Met Director Max Hollein offers a meditation on evolving approaches to collecting art from around the world, strategies for reaching new and diverse audiences, and the role of museums today.

ATLAS of Tadrart Acacus rock art. A UNESCO World Heritage site in southwestern Libya Savino di Lernia, Marina Gallinaro, 2022-12-30 The rock art sites of the Tadrart Acacus in southwestern Libya were inscribed on the UNESCO World Heritage List in 1985, largely owing to the activities started in 1955 by Fabrizio Mori, founder of the Libyan Italian Mission in the Tadrart Acacus and Messak. Since the beginning, the Department of Antiquities of Tripoli and Sebha, Libya, and Sapienza University of Rome, Italy, have worked in the region nearly without interruption until 2011. This book presents the archive of the rock art sites identified and recorded by the Italian Mission and by independent scholars, as described and critically assessed by the authors within the framework of the ASArt DATA project, the European Union's Horizon 2020 research and innovation programme. The contributions introducing the catalogue contextualize the environmental, archaeological, and cultural aspects of the engravings and paintings. They include chapters addressing the historical, cultural, and diplomatic issues involved in the long-term bilateral scientific cooperation.
