Asia And Europe Cooperating For Energy Security A Caec Task Force Report:

Energy Security in Asia Michael Wesley, 2007-01-24 This book explores the various dimensions of energy security in Asia which has become an increasingly important geopolitical issue Reputable international contributors look at the roles played by each of the major energy importers the United States China Japan and India as well as the main suppliers the OPEC states Russia the Central Asian states and Australia In each case the domestic politics of energy security are investigated and state interests and perspectives on the issue are considered Analyzing the policy and security aspects of energy security the book includes an examination of the geopolitics of energy competition strategic economic and environmental dimensions the impacts of energy security on human security With energy security being one of the central issues facing the world today this book is a timely and impressive appraisal of the major energy security issues facing Asia

Asia and Europe; Cooperating for Energy Security Francois Godement, Francoise Nicolas, Taizo Yakushiji, 2004-07 Energy security is an issue of common concern in Asia and Europe because of broad similarities in their energy situation such as a high import dependency and dependence on the Middle East The rise in energy demand in Asia has substantially affected the global energy balance and will have obvious implications for the rest of the world and Europe in particular Energy security also exhibits to some extent the characteristics of a public good which may be usefully managed in a collective way As a result there is definitely scope for cooperation on energy issues between the countries of the two regions despite possible competing interest The major objective of the present volume is to show that broadly converging interest between the two regions on a number of energy security related issues give them a opportunity to blaze a trail and provide guidance for global governance on these matters P 4 of cover

Europe-Asia Interregional Relations Bart Gaens, 2016-04-29 This book examines the interregional relations of the European Union with East Asia through the prism of the Asia Europe Meeting ASEM ASEM currently brings together 16 Asian countries the 27 member states of the European Union as well as the ASEAN Secretariat and the European Commission ASEM s ten year anniversary and the Sixth Summit in Helsinki prompted reflection on the forum s accomplishments in three dimensions of interaction its working methods democratic involvement public awareness and global strategic potential The volume provides an in depth evaluation of ASEM s first decade from a European perspective including the achievements of the ASEM6 Summit and its implications for the future of the process It also analyzes the role of interregional interaction as a tool for EU foreign policy

Energy Security A. Marquina, 2008-10-08 A new look at the different perspectives on energy security policies of European and Asian countries The book explains the reasons for the failure of EU common energy policies and the deficiencies in the policies towards Central Asia It examines Chinese energy diplomacy and the possibility of energy competition and cooperation in Northeast Asia

China's Approach to Energy Security Shaofeng Chen, 2023-07-15 This book aims to analyze how and why China takes a state managed marketization approach SMMA to energy security against the backdrop of global efforts of decarbonization and intensified strategic

competition between China and the United States How and why does China's SMMA work Taking an evolving historical perspective this book explores China's perception of energy security the policy process institutional restructuring in China's petroleum industry China's foreign energy quest and the ramifications of the Chinese approach on the international energy market and on world decarbonization To demonstrate to what extent China's SMMA differs from other countries it also makes a comparative analyses of the approaches by China the US and India This book will keenly interest scholars of the Chinese political economy climate change and geopolitics

Security and Profit in China's Energy Policy Øystein Tunsjø, 2013-11-19 China has developed sophisticated hedging strategies to insure against risks in the international petroleum market It has managed a growing net oil import gap and supply disruptions by maintaining a favorable energy mix pursuing overseas equity oil production building a state owned tanker fleet and strategic petroleum reserve establishing cross border pipelines and diversifying its energy resources and routes Though it cannot be secured China's energy security can be insured by marrying government concern with commercial initiatives This book comprehensively analyzes China's domestic global maritime and continental petroleum strategies and policies establishing a new theoretical framework that captures the interrelationship between security and profit Arguing that hedging is central to China's energy security policy this volume links government concerns about security of supply to energy companies search for profits and by drawing important distinctions between threats and risks peacetime and wartime contingencies and pipeline and seaborne energy supply routes the study shifts scholarly focus away from securing and toward insuring an adequate oil supply and from controlling toward managing any disruptions to the sea lines of communication The book is the most detailed and accurate look to date at how China has hedged its energy bets and how its behavior fits a hedging pattern

Energy and Society Gavin Bridge, Stewart Barr, Stefan Bouzarovski, Michael Bradshaw, Ed Brown, Harriet Bulkeley, Gordon Walker, 2018-05-30 Energy and Society is the first major text to provide an extensive critical treatment of energy issues informed by recent research on energy in the social sciences Written in an engaging and accessible style it draws new thinking on uneven development consumption vulnerability and transition together to illustrate the social significance of energy systems in the global North and South The book features case studies examples discussion questions activities recommended reading and more to facilitate its use in teaching Energy and Society deploys contemporary geographical concepts and approaches but is not narrowly disciplinary Its critical perspective highlights connections between energy and significant socio economic and political processes such as globalisation urbanisation international development and social justice and connects important issues that are often treated in isolation such as resource availability energy security energy access and low carbon transition Co authored by leading researchers and based on current research and thinking in the social sciences Energy and Society presents a distinctive geographical approach to contemporary energy issues It is an essential resource for upperlevel undergraduates and Master's students in geography environmental studies urban studies energy studies and related fields

Asia and Europe; The Necessity for Co-operation Karl Kaiser, 2004-07 This book summarizes the work of several Council for Asia Europe Cooperation CAEC task forces and reviews the role of Asia Europe cooperation in the contemporary world Convinced that the most important rationale behind Asia Europe cooperation is the shared interest in preventing a further deterioration of multilateralism and of international institutions editor Karl Kaiser finds it crucial for the two regions to cooperate in order to ensure that multilateral rules regimes and institutions remain the basis of the emerging world order The book explores the specific roles of Asia and Europe in the twenty first century and ways they can work together to avert crises restore peace where necessary and create a better structure of global governance Asia and Europe; Global Governance as a Challenge to Co-operation William Wallace, Soogil Young, 2004-07 The end of the cold war and the terrorist attacks of 9 11 have brought about profound changes in international politics A new system of global governance one that is better suited for the new political realities is desperately needed Global governance is defined here as a structure for consultation and cooperation among states to maintain global order to contain disorder to promote global prosperity through shared management of an open world economy and to address the difficult issues of global equity rights and justice This Council for Asia Europe Cooperation CAEC book attempts to redefine the roles of Asia and Europe in a changed world The authors analyze the ways cooperation could enhance global governance through future multilateralism and international institutions international economic and financial institutions trade and development and new security challenges *Track 2 Diplomacy in Asia* Brendan Taylor, Anthony Crothers Milner, Desmond Ball, 2006
