Arthur Gordon Pym, Benito Cereno, and Related Writings John D. Seelye, 1967 **ARTHUR GORDON PYM, BENITO CERENO, AND RELATED WRITINGS** EDGAR ALLAN POE AND HERMAN MELVILLE, 1967 **The Passage to Cosmos** Laura Dassow Walls, 2011-11-15 Humboldt offered the world a vision of humans nature as integrated halves of a single whole He espoused the idea that while the universe of nature exists apart from human purpose its beauty order are human achievements Laura Dassow Walls traces the emergence of this philosophy to Humboldt's 1799 journey to America

The Sea Voyage Narrative Robert Foulke, 2013-10-11 From The Odyssey to Moby Dick to The Old Man and the Sea the long tradition of sea voyage narratives is comprehensively explained here supported by discussions of key texts Young America Edward L. Widmer, 2000 This fascinating study examines the meteoric career of a vigorous intellectual movement rising out of the Age of Jackson As Americans argued over their destiny in the decades preceding the Civil War an outspoken new generation of ultra democratic writers entered the fray staking out positions on politics literature art and any other territory they could annex They called themselves Young America and they proclaimed a Manifest Destiny to push back frontiers in every category of achievement Their swagger found a natural home in New York City already bursting at the seams and ready to take on the world Young America's mouthpiece was the Democratic Review a highly influential magazine funded by the Democratic Party and edited by the brash and charismatic John O Sullivan The Review offered a fresh voice in political journalism and sponsored young writers like Hawthorne and Whitman early in their careers Melville too was influenced by Young America and provided a running commentary on its many excesses Despite brilliant promise the movement fell apart in the 1850s leaving its original leaders troubled over the darker destiny they had ushered in Their ambitious generation had failed to rewrite history as promised Instead their perpetual agitation helped set the stage for the Civil War Young America The Flowering of Democracy in New York City is without question the most complete examination of this captivating and original movement It also provides the first published biography of its leader John O Sullivan one of America's great rhetoricians Edward L Widmer enriches his unique volume by offering a new theory of Manifest Destiny as part of a broader movement of intellectual expansion in nineteenth century America *Vast Expanses* Helen M.

Rozwadowski, 2018-10-15 Much of human experience can be distilled to saltwater tears sweat and an enduring connection to the sea In *Vast Expanses* Helen M Rozwadowski weaves a cultural environmental and geopolitical history of that relationship a journey of tides and titanic forces reaching around the globe and across geological and evolutionary time Our ancient connections with the sea have developed and multiplied through industrialization and globalization a trajectory that runs counter to Western depictions of the ocean as a place remote from and immune to human influence Rozwadowski argues that knowledge about the oceans created through work and play scientific investigation and also through human ambitions for profiting from the sea has played a central role in defining our relationship with this vast trackless and opaque place It has

helped us to exploit marine resources control ocean space extend imperial or national power and attempt to refashion the sea into a more tractable arena for human activity But while deepening knowledge of the ocean has animated and strengthened connections between people and the world s seas to understand this history we must address questions of how by whom and why knowledge of the ocean was created and used and how we create and use this knowledge today Only then can we can forge a healthier relationship with our future sea

Slavery, Surveillance and Genre in Antebellum United States Literature Kelly Ross,2023-01-23 This book argues for the existence of deep often unexamined interconnections between genre and race by tracing how surveillance migrates from the literature of slavery to crime gothic and detective fiction not only through the traditional concept of surveillance top down but also the tactics of sousveillance watching from below
