As They See It The Development Of The African Aids Discourse Paperback:

AS THEY SEE IT Raymond Downing, 2005-04-30 African AIDS in the West is often associated with media images of skeletal forlorn looking and dying Africans inviting the sympathy of the viewer or reader Associated with these images are often motleys of subtly hidden narratives poverty promiscuity failed leadership impending Armageddon and lately the greed and heartlessness of Western drugs companies who are harangued for prioritising profits over African lives But how do Africans themselves see AIDS What do they believe causes the disease How do those affected by the undeniable epidemic really live with it And how has the disease affected the Africans sense of who they are With the possible exception of the perspectives espoused by President Thabo Mbeki of South Africa much of which is distorted the African AIDS discourse has as with most things African been severely marginalized if not completely kept away from the Western media Dr Raymond Downing an American medical doctor who with his wife also a medical doctor have been living and practising medicine in different African countries for over fifteen years seeks to plug this lacuna with this book Based on personal observations interviews the reading of African press books and AIDS narrative in African fiction as well as in academic papers Dr Downing charts the development of the African AIDS discourse He invites the reader to look beyond the AIDS epidemic to see how Africans view health and diseases in general A Current Bibliography on African Affairs ,2006 Encouraging and Supporting Student Inquiry Harriet S. Selverstone, 2007-09-30 Assignments that engage students in inquiry topics of their own choosing contribute to motivation and thus to learning Very often the topics chosen particularly by high school students are considered controversial by school administration parents community organizations and others This practical book discusses the processes actions and policies needed to support and encourage high school students in that type of inquiry Building trusting relationships over time with administration and the school community will be stressed as a way to build a community of true inquiry in your school and library Classroom teachers and high school librarians will value the advice and scaffolding techniques presented that will enable their school and high school library to become a safe place for student inquiry into issues of their own choosing controversial or not The author draws on her 30 plus years as a high school librarian deeply concerned with the intellectual freedom of the researchers in her library media center and with offering help and reassurance to those trying to implement school library programs that allow all voices to be heard Grades 9 12 *Suffering and Healing in America* Raymond Downing, Beverley Hancock, 2018-10-08 This book contains a foreword by Ron Pust Professor of Family Medicine University of Arizona USA Written by a practicing physician with 30 years experience both in America and Africa *Suffering and Healing in America* takes a critical look at Western health care and examines its weaknesses With a thought provoking rather than prescriptive approach this extraordinary book offers a new reasoning in health care learning from history and traditional cultures *Suffering and Healing in America* will be of great interest to all health care professionals and researchers with an interest in public health Religious and spiritual leaders will find this book a source of inspiration and

policy makers and shapers worldwide will find plenty to inform and guide their thoughts on the future of health care in America and beyond It doesn't matter whether you are a provider or a consumer of health care whether in the USA or outside this book continues to draw keenly reflective cultural insights to challenge us all America has money and science but we may have abandoned the spiritual and social context of our lives and deaths In Africa and in many other places on our planet it is quite the opposite I invite you to explore these contrasts with Ray Downing This book's lessons have much to teach us Ron Pust in the Foreword

Biohealth Raymond Downing, 2011-09-01 The development of modern medicine is on a very steep trajectory upward a rise that began only about a hundred years ago This rise is certainly quantitative but it is accompanied by qualitative changes in the way we understand and deliver healthcare This book begins with a look at three recognized periods of medical development from 1900 until World War II from the war until about 1980 and the period since 1980 While the common response is to celebrate these developments this book suggests that perhaps we should also be wary especially of the qualitative changes Since World War II these medical developments have entered more and more areas of our lives It is precisely this process of medicalization that should be critically examined Since 1980 we have medicalized life itself Drawing from medical sociology the book examines four characteristics of contemporary Western health care health as a system risk as a means of understanding health health as a commodity and individual responsibility for health Critical examination of these four tendencies in contemporary health care forms the core of the argument of this important book about the essence of biohealth and medical practice

African Renaissance, 2006

Directory of African Businesses & Organisations in the UK., 2007

Beyond the 'African Tragedy' Malinda Smith, 2006 Well researched and insightful this volume examines the historical and contemporary discourse on African development and the continent's place in the global economy This timely resource is suitable for students and policy makers concerned with development

Ugandan Children's Literature and Its Implications for Cultural and Global Learning in TEFL Stephanie Schaidt, 2018-01-15 The present study adds to TEFL discourse in several ways First of all it contributes to the widening of the canon as it focuses on Ugandan children's fiction Secondly the research connects to the few empirical studies that exist in the field It provides further implications for cultural and global learning and literary didactics in TEFL derived from insights into the mental processes of a group of Year 9 students in Germany engaging with Ugandan children's fiction within the scope of an extensive reading project

The Scientific Imagination in South Africa William Beinart, Saul Dubow, 2021-05-20 South Africa provides a unique vantage point from which to examine the scientific imagination over the last three centuries when its position on the African continent made it a staging post for Portuguese Dutch and British colonialism In the eighteenth century South African plants and animals caught the imagination of visiting Europeans In the nineteenth century science became central to imperial conquest devastating wars agricultural intensification and the exploitation of rich mineral resources Scientific work both facilitated and offered alternatives to the imposition of segregation and apartheid in the twentieth century William

Beinart and Saul Dubow offer an innovative exploration of science and technology in this complex divided society Bridging a range of disciplines from astronomy to zoology they demonstrate how scientific knowledge shaped South Africa s peculiar path to modernity In so doing they examine the work of remarkable individual scientists and institutions as well as the contributions of leading politicians from Jan Smuts to Thabo Mbeki
