Ascent to the Beautiful William H. F. Altman,2020-10-21 With Ascent to the Beautiful William H F Altman completes his five volume reconstruction of the Reading Order of the Platonic dialogues This book covers Plato s elementary dialogues grappling from the start with F D E Schleiermacher who created an enduring prejudice against the works Plato wrote for beginners Recognized in antiquity as the place to begin Alcibiades Major was banished from the canon but it was not alone with the exception of Protagoras and Symposium Schleiermacher rejected as inauthentic all seven of the dialogues this book places between them In order to prove their authenticity Altman illuminates their interconnections and shows how each prepares the student to move beyond self interest to gallantry and thus from the doctrinal intellectualism Aristotle found in Protagoras to the emergence of philosophy as intermediate between wisdom and ignorance in Symposium en route to Diotima s ascent to the transcendent Beautiful Based on the hypothesis that it was his own eminently teachable dialogues that Plato taught and bequeathed to posterity as his Academy s eternal curriculum Ascent to the Beautiful helps the reader to imagine the Academy as a school and to find in Plato the brilliant teacher who built on Homer Thucydides and Xenophon

The Ascent of Humanity Charles Eisenstein,2013-02-05 The author of The More

Beautiful World Our Hearts Know Is Possible explores the history and potential future of civilization tracing the converging crises of our age to the illusion of the separate self Our disconnection from one another and the natural world has mislaid the foundations of science religion money technology economics medicine and education as we know them It has fired our near pathological pursuit of technological Utopias even as we push ourselves and our planet to the brink of collapse Fortunately an Age of Reunion is emerging out of the birth pangs of an earth in crisis Our journey of separation hasn t been a terrible mistake but an evolutionary process and an adventure in self discovery Even in our darkest hour Eisenstein sees the possibility of a more beautiful world not through the extension of millennia old methods of management and control but by fundamentally reimagining ourselves and our systems We must shift away from our Babelian efforts to build ever higher towers to heaven and instead turn out attention to creating a new kind of civilization one designed for beauty rather than height
