**One Billion Americans** Matthew Yglesias, 2024-05-14 NATIONAL BESTSELLER What would actually make America great more people If the most challenging crisis in living memory has shown us anything it is that America has lost the will and the means to lead We can't compete with the huge population clusters of the global marketplace by keeping our population static or letting it diminish or with our crumbling transit and unaffordable housing The winner in the future world is going to have more ideas more ambition more utilization of resources more people Exactly how many Americans do we need to win According to Matthew Yglesias one billion From one of our foremost policy writers One Billion Americans is the provocative yet logical argument that if we aren't moving forward we're losing Vox founder Yglesias invites us to think bigger while taking the problems of decline seriously What really contributes to national prosperity should not be controversial supporting parents and children welcoming immigrants and their contributions and exploring creative policies that support growth like more housing better transportation improved education revitalized welfare and climate change mitigation Drawing on examples and solutions from around the world Yglesias shows not only that we can do this but why we must Making the case for massive population growth with analytic rigor and imagination One Billion Americans issues a radical but undeniable challenge Why not do it all and stay on top forever *Feed the Baby Hummus* Lisa Lewis, 2018-03-01 Parenting practices vary widely between countries and cultures For example in countries such as the Philippines breastfeeding after age one year is common and parents can make their own decision about what is right for their family In Korea babies eat a variety of spices and flavors helping them develop a diverse palate and healthy eating habits And in Italy parents prevent separation anxiety by taking their babies to markets restaurants and churches and passing them around from person to person *Feed the Baby Hummus* teaches parents to confidently incorporate various multicultural practices into their own caretaking plan Pediatrician Lisa Lewis offers the wisdom and proven caretaking practices of the cultures of the world drawn from her own training research travel and clinical experience Although certain standards of care must exist for babies to thrive and be happy *Feed the Baby Hummus* offers a variety of cross cultural parenting information and baby care guidance from a trusted source *The Right Not to Stay* Valeria Ottonelli, Tiziana Torresi, 2022-09-08 A central question in the debate on justice in immigration is whether immigrants have a right to stay this book argues that liberal democratic receiving states should also grant migrants a right not to stay This claim runs against the presumption that migrants always desire to move on a permanent basis and intend to forge a completely new life in the country of destination From this perspective temporary migration is always a second best option for migrants engendered by the closed and often punitive migration policies of receiving countries This book's innovative focus on the right not to stay is prompted instead by the realization that increasing numbers of migrants throughout the world conceive and plan their migratory experience as circumscribed in time and instrumental to goals and projects that they will pursue once back in their country of origin These

temporary migration projects are worthy of being accommodated by the receiving states as much as the migratory plans of those who resolve or aim to immigrate on a permanent basis Accommodating them entails setting up the appropriate welfare measures and programs in the host country and through bi lateral agreements in the country of return This is especially important in view of the fact that very often the migrants who engage in temporary migration projects find themselves in a condition of high vulnerability and risk The right not to stay advocated in this book is a positive and substantive right to see one s project of temporary migration and return protected and accommodated by institutions
