**Back to Our Future II** Jon Pedersen, Kevin D. Finson, Barbara S. Spector, 2015-08-01 Who were the pioneers in science education and what motivated them to do what they did This book is the second volume of an attempt to capture and record some of the answers to these questions either from the pioneers themselves or from those persons who worked most closely with them As with the first volume we have attempted to include as many pioneers as possible but we know that there are still many that are not included in this or the previous volume As we have posed questions rummaged through files and oft neglected books and probed the memories of many individuals we have come to realize our list of true pioneers is ever growing As we consider our list of pioneers we know that there are names on the list that most of us readily recognize We also fully realize that there are names of whom few of us have heard yet who were significant in their roles as mentors or idea development and teaching We continue to be impressed with our science education family tree ever branching out to more individuals and connections The stories in this volume continue to demonstrate how vital this network was in supporting the individual pioneers during their journey in difficult times and continues to be for those of us today in our own enterprise **Innovation + Equality** Joshua Gans, Andrew Leigh, 2020-12-08 How to get more innovation and more equality Is economic inequality the price we pay for innovation The amazing technological advances of the last two decades in such areas as artificial intelligence genetics and materials have benefited society collectively and rewarded innovators handsomely we get cool smartphones and technology moguls become billionaires This contributes to a growing wealth gap in the United States the wealth controlled by the top 0.1 percent of households equals that of the bottom ninety percent Is this the inevitable cost of an innovation driven economy Economist Joshua Gans and policy maker Andrew Leigh make the case that pursuing innovation does not mean giving up on equality precisely the opposite In this book they outline ways that society can become both more entrepreneurial and more egalitarian All innovation entails uncertainty there s no way to predict which new technologies will catch on Therefore Gans and Leigh argue rather than betting on the future of particular professions we should consider policies that embrace uncertainty and protect people from unfavorable outcomes To this end they suggest policies that promote both innovation and equality If we encourage innovation in the right way our future can look more like the cheerful techno utopia of Star Trek than the dark techno dystopia of The Terminator **A Timeless Script From a 1st Century Doctor** Rick Farmer, 2024-09-26 Before Dr Farmer I absolutely hated school Dr Farmer saw me as a human being not just a student He forced me to think for myself He was my professor and my mentor He pushed me to see there are no limits to my opportunities to come Dr Farmer believed in me when I did not believe in myself whether

making a jump shot or making a good grade Tianna G Crockett M A Bluefield University Rick Farmer combines keen biblical insights with a wise devotional heart as he leads the reader through the unique and powerful advent of Christ contained in the Gospel of Luke Rick s A Timeless Script is just what the doctor ordered for those looking for a Guide through Advent and beyond Henry W Clary Ph D Professor Bluefield University We re sick and in desperate need of a doctor to both diagnose and treat In A Timeless Script from a 1st Century Doctor Dr Rick Farmer wisely recommends Luke s Gospel written by a physician whose treatment plan would be initially resisted or downright rejected by most But Luke s Gospel specifically the first two chapters highlight the uniquely universal cure capable of healing us all The Advent of Christ The story of the birth life death and resurrection of Jesus who embarked on a mission to save teach and heal offers a remedy for all Despite the heartache pain and suffering found in this timeless story it is the miraculous truth of faith hope and love that provides us with the prescription we desperately need If you are seeking to be restored to a healthy state of mind and body so you can live a life of meaning and purpose look no further Scott Weibling Author of River Guide Published by Scott Weibling 2017
