the Sustainable Development Goals SDGs should seek to build on that experience sharpening our focus on the key health service and financial protection interventions that underpin UHC Effective UHC tracking is central to achieving the global goals for poverty alleviation and health improvement set by the World Bank Group and WHO Without it policymakers and decision takers cannot say exactly where they are or set a course for where they want to go They cannot know whether they are focussing their efforts in the right areas or whether their efforts are making a difference Monitoring is thus fundamental to the achievement of UHC objectives It will also be vital to the realization of the SDGs This report is a critical step to show how monitoring progress can be done telling us what the state of coverage of interventions and financial protection is and telling us where to focus most
