Digital Technologies in the New Socio-Economic Reality Svetlana Igorevna Ashmarina, Valentina Vyacheslavovna Mantulenko, 2021-11-16. This book contains contributions from the IX International Scientific Conference "Digital Transformation of the Economy: Challenges, Trends, and New Opportunities," which was organized by Samara State University of Economics (SSEU), Samara, Russia, 2021, and devoted to the 90th anniversary of this higher education institution. Digital technologies became even more in demand during the pandemic when companies, state authorities, and educational organizations were forced to switch to a remote format of work. The forced digitization of the usual ways of activity required rapid and decisive changes. Understanding the ongoing digital transformation implies the relevance of further in-depth research of this issue in the context of various socioeconomic systems, interdisciplinary interactions, and cooperation between scientists and practitioners. The book is an attempt to analyze these changes and consider them from the point of view of various scientific areas: economics, management, education, law, sociology, and others. This book addresses theoretical and practical aspects by studying the digital technology application in terms of the new socioeconomic reality, development of big data in the digital economy, data collection and exchange, artificial intelligence, intelligent communications, digital platforms, and strategies for the sustainable development of socioeconomic systems and new requirements of professional and business education. It provides significant value for scientists, teachers, and students of higher educational institutions.
